To amend the Act of June 7, 1939 (53 Stat. 811), as amended, relating to the acquisition of stocks of strategic and critical materials for national defense purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the Act of June 7, 1939 (53 Stat. 811), as amended, is hereby amended to read as follows:

"That the natural resources of the United States in certain strategic and critical materials being deficient or insufficiently developed to supply the industrial, military, and naval needs of the country for common defense, it is the policy of the Congress and the purpose and intent of this Act to provide for the acquisition and retention of stocks of these materials and to encourage the conservation and development of sources of these materials within the United States, and thereby decrease and prevent wherever possible a dangerous and costly dependence of the United States upon foreign nations for supplies of these materials in times of national emergency.

"SEC. 2. (a) To effectuate the policy set forth in section 1 hereof the Secretary of War, the Secretary of the Navy, and the Secretary of the Interior, acting jointly through the agency of the Army and Navy Munitions Board, are hereby authorized and directed to determine, from time to time, which materials are strategic and critical under the provisions of this Act and to determine, from time to time, the quality and quantities of such materials which shall be stock piled under the provisions of this Act. In determining the materials which are strategic and critical and the quality and quantities of same to be acquired the Secretaries of State, Treasury, Agriculture, and Commerce shall each designate representatives to cooperate with the Secretary of War, the Secretary of the Navy, and the Secretary of the Interior in carrying out the provisions of this Act.

Determination of strategic and critical materials.

Cooperation of designated departments.

"(b) To the fullest extent practicable the Secretary of War, the Secretary of the Navy, and the Secretary of the Interior, acting jointly, shall appoint industry advisory committees selected from the industries concerned with the materials to be stock piled. It shall be the general function of the industry advisory committees to advise with the Secretary of War, the Secretary of the Navy, and the Secretary of the Interior and with any agencies through which they may exercise any of their functions under this Act with respect to the purchase, sale, care, and handling of such materials. Members of the industry advisory committees shall receive a per diem allowance of not to exceed \$10 for each day spent at conferences held upon the call of the Secretary of War, the Secretary of the Navy, and the Secretary of the Interior, plus necessary traveling and other expenses while so engaged.

"SEC. 3. The Secretary of War and the Secretary of the Navy shall direct the Secretary of the Treasury, through the medium of the Procurement Division of his Department, to—

"(a) make purchases of strategic and critical materials with due regard to the objectives set forth in section 1 of this Act and pursuant to the determinations as provided in section 2 hereof, which purchases (1) shall be made, so far as is practicable, from supplies of materials in excess of the current industrial demand and (2) shall be made in accordance with title III of the Act of March 3, 1933 (47 Stat. 1520), but may be made without regard to section 3709 of the Revised Statutes. A reasonable time (not to exceed one year) shall be allowed for production and delivery from domestic sources and in the case of any such material available in the United States but which has not been developed commercially, the Secretary of War and the Secretary of the Navy may, if they find that the production of such material is economically feasible, direct the purchase of such material without requiring the vendor to give bond;

"(b) provide for the storage, security, and maintenance of strategic and critical materials for stock-piling purposes on military and naval reservations or other locations, approved by the Secretary of War and the Secretary of the Navy;

"(c) provide through normal commercial channels for the refining or processing of any materials acquired or transferred under this Act when the Secretary of War and the Secretary of the Navy deem such action necessary to convert such materials into a form best suitable for stock piling, and such materials may be refined, processed, or otherwise beneficiated either before or after their transfer from the owning agency;

"(d) provide for the rotation of any strategic and critical materials constituting a part of the stock pile where necessary to prevent deterioration by replacement of acquired stocks with equivalent quantities of substantially the same material with the approval of the Secretary of War and the Secretary of the Navy;

"(e) dispose of any materials held pursuant to this Act which are no longer needed because of any revised determination made pursuant to section 2 of this Act, as hereinafter provided. No such disposition shall be made until six months after publication in the Federal Register and transmission of a notice of the proposed disposition to the Congress and to the Military Affairs Committee of each House thereof. Such notice shall state the reasons for such revised determination, the amounts of the materials proposed to be released, the plan of disposition proposed to be followed, and the date upon which the material is to become available for sale

The plan and date of disposition shall be fixed with due regard to the protection of the United States against avoidable loss on the sale or transfer of the material to be released and the protection of producers, processors, and consumers against avoidable disruption of their usual markets: *Provided*, That no material constituting a part of the stock piles may be disposed of without the express approval of the Congress except where the revised determination is by reason of obsolescence of that material for use in time of war. For the purposes of this paragraph a revised determination is by reason of obsolescence if such determination is on account of (1) deterioration, (2) development or discovery of a new or better material or materials, or (3) no further usefulness for use in time of war.

"SEC. 4. The Secretary of War and the Secretary of the Navy shall submit to the Congress, not later than six months after the approval of this Act, and every six months thereafter a written report detailing the activities with respect to stock piling under this Act, including a statement of foreign and domestic purchases, and such other pertinent information on the administration of the Act as will enable the Congress to evaluate its administration and the need for amendments and related legislation.

"SEC. 5. The stock piles shall consist of all such materials heretofore purchased or transferred to be held pursuant to this Act, or hereafter transferred pursuant to section 6 hereof, or hereafter purchased pursuant to section 3 hereof, and not disposed of pursuant to this Act. Except for the rotation to prevent deterioration and except for the disposal of any material pursuant to section 3 of this Act, materials acquired under this Act shall be released for use, sale, or other disposition only (a) on order of the President at any time when in his judgment such release is required for purposes of the common defense, or (b) in time of war or during a national emergency with respect to common defense proclaimed by the President, on order of such agency as may be designated by the President.

"SEC. 6. (a) Pursuant to regulations issued by the War Assets Administration or its successor, every material determined to be strategic and critical pursuant to section 2 hereof, which is owned or contracted for by the United States or any agency thereof, including any material received from a foreign government under an agreement made pursuant to the Act of March 11, 1941 (55 Stat. 31), as amended, or other authority, shall be transferred by the owning agency, when determined by such agency to be surplus to its needs and responsibilities, to the stock piles established pursuant to this Act, so long as the amount of the stock pile for that material does not exceed the quantities determined therefor pursuant to section 2 hereof. There shall be exempt from this requirement such amount of any material as is necessary to make up any deficiency of the supply of such material for the current requirements of industry as determined by the Civilian Production Administration or its successor. There shall also be exempt from this requirement (1) any material which constitutes contractor inventory if the owning agency shall not have taken possession of such inventory, (2) such amount of any material as the Army and Navy Munitions Board determines (i) are held in lots so small as to make the transfer thereof economically impractical; or (ii) do not meet or cannot economically be converted to meet, stock-pile requirements determined in accordance with section 2 of this Act. The total material transferred to the stock piles established by this Act in accordance with this section during any fiscal year beginning more than twelve months after this Act becomes law shall not exceed in

value (as determined by the Secretary of the Treasury on the basis of the fair market value at the time of each transfer) an amount to be fixed by the appropriation Act or Acts relating to the acquisition of materials under this Act.

“(b) Any transfer made pursuant to this section shall be made without charge against or reimbursement from the funds available under this Act, except that expenses incident to such transfer may be paid or reimbursed from such funds, and except that, upon any such transfer from the Reconstruction Finance Corporation, or any corporation organized by virtue of the authority contained in the Act of January 22, 1932 (47 Stat. 5), the Secretary of the Treasury shall cancel notes of Reconstruction Finance Corporation, and sums due and unpaid upon or in connection with such notes at the time of such cancellation, in an amount equal to the fair market value as determined by the Secretary of the Treasury of the material so transferred.

“(c) Effective whenever the Secretary of the Treasury shall cancel any notes pursuant to subsection (b) of this section, the amount of notes, debentures, bonds, or other such obligations which the Reconstruction Finance Corporation is authorized and empowered to have outstanding at any one time under the provisions of existing law shall be deemed to be reduced by the amount of the notes so canceled.

“(d) Subsection (b) of section 14 of the Act of October 3, 1944 (58 Stat. 765), is hereby amended to read as follows:

“(b) Subject only to subsection (c) of this section, any owning agency may dispose of—

“(1) any property which is damaged or worn beyond economical repair;

“(2) any waste, salvage, scrap, or other similar items;

“(3) any product of industrial, research, agricultural, or livestock operations, or of any public works construction or maintenance project, carried on by such agency;

which does not consist of materials which are to be transferred in accordance with the Strategic and Critical Materials Stock Piling Act, to the stock piles established pursuant to that Act.”

“(e) Section 22 of the Act of October 3, 1944 (58 Stat. 765), is hereby repealed: *Provided*, That any owning agency as defined in that Act having control of materials that, when determined to be surplus, are required to be transferred to the stock piles pursuant to subsection (a) hereof, shall make such determination as soon as such materials in fact become surplus to its needs and responsibilities.

“SEC. 7. (a) The Secretary of the Interior, through the Director of the Bureau of Mines and the Director of Geological Survey, is hereby authorized and directed to make scientific, technologic, and economic investigations concerning the extent and mode of occurrence, the development, mining, preparation, treatment, and utilization of ores and other mineral substances found in the United States or its Territories or insular possessions, which are essential to the common defense or the industrial needs of the United States, and the quantities or grades of which are inadequate from known domestic sources, in order to determine and develop domestic sources of supply, to devise new methods for the treatment and utilization of lower grade reserves, and to develop substitutes for such essential ores and mineral products; on public lands and on privately owned lands, with the consent of the owner, to explore and demonstrate the extent and quality of deposits of such minerals, including core drilling, trenching, test-pitting, shaft sinking, drifting, cross-cutting, sampling, and metallurgical investigations and tests as may be necessary to determine the extent and

JOINT RESOLUTION

Extending the effective period of the Emergency Price Control Act of 1942, as amended, and the Stabilization Act of 1942, as amended.

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That section 1 (b) of the Emergency Price Control Act of 1942, as amended, is amended by striking out "June 30, 1946" and substituting "June 30, 1947".

SEC. 2. Section 6 of the Stabilization Act of 1942, as amended, is amended by striking out "June 30, 1946" and substituting "June 30, 1947".

SEC. 3. Title I of the Emergency Price Control Act of 1942, as amended, is amended by inserting after section 1 thereof a new section as follows:

"PURPOSES AND POLICIES IN THE TRANSITION PERIOD

"SEC. 1A. (a) OBJECTIVES.—The Congress hereby affirms—

"(1) that because of abnormally excess spending power in relation to the presently available supply of commodities, rapid attainment of production equal to the public demand is one of the necessary and urgent objectives for the prevention of inflation and for the achievement of a reasonable stability in the general level of prices and rents, cost of living and costs of production (including labor costs), for the purposes set forth in section 1 of this Act and for the further purposes of protecting the real value of benefits provided by law for veterans and their dependents, of keeping faith with purchasers of United States War Bonds, and of making possible a successful transition to a peacetime economy of maximum employment, production, and purchasing power under a system of free enterprise;

"(2) that unnecessary or unduly prolonged controls over prices and rents and use of subsidies would be inconsistent with the return to such a peacetime economy and would tend to repress and prevent the attainment of this and the other goods herein declared; and

"(3) that adequate prices are necessary stimulants to the production thus desired and the expeditious attainment of said goals.

"(b) DECLARATION OF DECONTROL POLICY.—Therefore, it is hereby declared to be the policy of the Congress that the Office of Price Administration, and other agencies of the Government, shall use their price, subsidy, and other powers to promote the earliest practicable balance between production and the demand therefor of commodities under their control, and that the general control of prices and the use of subsidy powers shall, subject to other specific provisions of this Act, be terminated as rapidly as possible consistent with the policies and purposes set forth in this section and in no event later than June 30, 1947, and on that date the Office of Price Administration shall be abolished.

"(c) RECOMMENDATIONS BY THE PRESIDENT TO THE CONGRESS.—

(1) As soon as practicable after the enactment of this section and in any event on or before January 15, 1947, the President shall recommend to the Congress such further legislation as in his judgment is needed to establish monetary, fiscal, and other policies which are adequate to supplement the control of prices and wages during the balance of the fiscal year 1947, and to insure that general control of

"(2) On or before April 1, 1947, the President shall report to the Congress what, if any, commodities or classes of commodities, including housing accommodations, are in such critically short supply as to necessitate, in his judgment, the continuance of the powers granted by this Act as to them after June 30, 1947, together with his recommendations as to established departments or agencies of the Government (other than the Office of Price Administration) which should be charged with the administration of such powers.

"(d) DECONTROL OF NONAGRICULTURAL COMMODITIES.—(1) On or before December 31, 1946, the Administrator shall decontrol all non-agricultural commodities not important in relation to business costs or living costs, and prior to that date shall proceed with such decontrol as rapidly as, in his judgment, will be consistent with the avoidance of a cumulative and dangerous unstabilizing effect. In no event shall maximum prices be maintained after December 31, 1946, for any non-agricultural commodity or class of commodities unless the same has been expressly found by the Administrator to be important in relation to business costs or living costs.

Maintenance of maximum prices after Dec. 31, 1946.

"(2) The Administrator shall provide for the prompt removal of maximum prices in the case of any nonagricultural commodity whenever the supply thereof exceeds or is in approximate balance with the demand therefor (including appropriate inventory requirements).

Removal of maximum prices.

"(3) Whenever, after a reasonable test period, it appears that the supply of a nonagricultural commodity which has been decontrolled is no longer consistent with the applicable decontrol standard, the Administrator, with the advance consent in writing of the Price Decontrol Board established under subsection (h), shall reestablish such maximum prices for the commodity, consistent with applicable provisions of law, as in his judgment may be necessary to effectuate the purposes of this Act. The supply of a nonagricultural commodity shall be deemed inconsistent with the applicable decontrol standard in any case where the prices of the commodity have risen to and after a reasonable test period remain at unreasonable and inflationary levels.

Reestablishment of maximum prices.

Post, p. 669.

"(4) Nothing contained in this Act shall be construed to authorize the Administrator to impose or maintain price controls with respect to petroleum or petroleum products processed or manufactured in whole or substantial part from petroleum, except that, after August 20, 1946, maximum prices with respect thereto may be reestablished pursuant to the provisions of paragraph (3) of this subsection (d), but only under the standards prescribed in paragraph (8) (C) of subsection (e).

"(e) AGRICULTURAL COMMODITIES.—(1) On the first day of the first calendar month which begins more than thirty days after the date of enactment of this section, the Secretary of Agriculture shall certify to the Price Administrator each agricultural commodity which such Secretary determines to be in short supply. Thereafter, on the first day of each succeeding calendar month the Secretary shall certify modifications of such certification by adding other agricultural commodities which have become in short supply and by removing from such certification such commodities which he determines are no longer in short supply. No maximum price shall be applicable with respect to any agricultural commodity during any calendar month which begins more than thirty days after the date of enactment of this section, unless such commodity is certified to the Price Administrator under this paragraph as being in short supply.

"(2) (A) Whenever the Secretary of Agriculture determines that maximum prices applicable to any agricultural commodity which is in short supply are impeding the necessary production of such commodity, he may recommend to the Price Administrator such adjustments in such maximum prices as the Secretary determines to be necessary to attain the necessary production of such commodity.

"(B) The Secretary of Agriculture by December 31, 1946, shall recommend to the Price Administrator the removal of maximum prices on all agricultural commodities, whether or not in short supply, not important in relation to business costs or living costs, and prior to that date shall make such recommendations as rapidly as, in his judgment, will be consistent with the avoidance of a cumulative and dangerous unstabilizing effect.

"(C) Within ten days after the receipt of any recommendation under this subsection for the adjustment of maximum prices applicable to any agricultural commodity, or for the removal of maximum prices on agricultural commodities not important in relation to business costs or living costs, the Price Administrator shall adjust or remove such maximum prices in accordance with such recommendations.

"(3) Whenever the Secretary of Agriculture determines that an agricultural commodity with respect to which maximum prices have been removed is in short supply and that the reestablishment of maximum prices with respect thereto is necessary to effectuate the purposes of this Act, the Secretary, with the written consent of the Price Decentral Board, may recommend to the Administrator, and the Administrator shall establish, such maximum prices with respect to such commodity, consistent with applicable provisions of law, as in the judgment of the Secretary are necessary to effectuate the purposes of this Act.

"(4) For the purposes of this section (except subparagraph (6) of this subsection (d))—

"(A) an agricultural commodity shall be deemed to be in short supply unless the supply of such commodity equals or exceeds the requirements for such commodity for the current marketing season;

"(B) the term 'agricultural commodity' shall be deemed to mean any agricultural commodity and any food or feed product processed or manufactured in whole or substantial part from any agricultural commodity;

"(C) the term 'subsidy' means any subsidy or purchase and sale operations described in the last paragraph of section 2 (e) of this Act.

"(5) Notwithstanding any other provision of this or any other law, except as provided in subsection (h), the Secretary of Agriculture, in exercising his functions under this Act, shall not be subject to the direction or control of any other appointive officer or agency in the executive branch of the Government, and no such officer or agency shall undertake to exercise any direction or control over the Secretary of Agriculture with respect to the exercise of such functions. The Secretary of Agriculture may at any time withdraw his approval of any action with respect to which his approval is required under this Act, and upon the withdrawal of his approval such action shall be rescinded.

"(6) No maximum price and no regulation or order under this Act or the Stabilization Act of 1942, as amended, shall be applicable with respect to any agricultural commodity, or any service rendered with respect to any agricultural commodity, unless a regulation or order establishing a maximum price with respect to such commodity had been issued under this Act prior to April 1, 1946.

"(7) No maximum price and no regulation or order under this Act or the Stabilization Act of 1942, as amended, shall be applicable with respect to poultry or eggs or food or feed products processed or manufactured in whole or substantial part therefrom, or in the case of leaf tobacco or tobacco products processed or manufactured in whole or substantial part therefrom, except that, after August 20, 1946, maximum prices with respect thereto may be reestablished pursuant to the provisions of paragraph (3) of this subsection (e), but only under the standards prescribed in paragraph (8) (C) of this subsection (e).

"(2) Within fifteen days after receiving a petition filed in accordance with the provisions of this subsection, the Administrator or the Secretary of Agriculture, as the case may be, shall either grant the petition or inform the committee in writing why in his judgment the standards for decontrol stated in subsections (d) and (e) have not been satisfied with respect to the commodity involved. If the petition is not granted in full, the Administrator or the Secretary, as the case may be, shall, within ten days after the receipt of a request by the committee for further consideration of its petition, hold a hearing before himself or before a deputy administrator (or, in the case of the Secretary, before such officer as he may designate) at which the committee may present its argument in support of the petition. Within fifteen days after such hearing, the Administrator or the Secretary, as the case may be, shall either grant the petition in full or furnish the industry advisory committee with a statement in writing of his reasons for denying it in whole or in part together with a statement of any economic data or other facts of which he has taken official notice in connection with such denial.

“(3) At any time within thirty days after the denial in whole or in part, following a hearing, of a petition filed under this subsection, the petitioning industry advisory committee may petition the Price Decontrol Board established under subsection (h) for a review of the action of the Administrator or the Secretary of Agriculture. If the Administrator or the Secretary, as the case may be, fails to act upon a petition within the time prescribed by paragraph (2), the industry advisory committee may, at any time within thirty days after the expiration of the time so prescribed, petition the Price Decontrol Board for the removal of maximum prices on the commodity involved.

“(4) Nothing in this section shall be construed to take away or impair any right of any person to protest, in accordance with the provisions of sections 203 and 204 of this Act, the further maintenance of maximum prices for a commodity under the standards of subsection (d) or (e): *Provided*, That the filing of such a protest or of a petition under paragraph 3 of this subsection shall not be grounds for staying any proceeding brought pursuant to section 205 of this Act or section 37 of the Criminal Code, and no retroactive effect shall be given to any judgment setting aside a provision of a regulation, order, or price schedule under the standards set forth in this section.

“(h) PRICE DECONTROL BOARD.—(1) There is hereby established as an independent agency in the executive branch of the Government a Price Decontrol Board, to be composed of three members appointed by the President by and with the advice and consent of the Senate. Not more than two members of the Board shall be members of the same political party. Two members of the Board shall constitute a quorum, and a vacancy in the membership of the Board shall not impair the power of the remaining members to exercise its functions. Members of the Board shall receive compensation at the rate of \$12,000 a year.

“(2) The Board shall appoint and fix the compensation of a secretary for the Board and such other officers and employees as may be necessary to enable it to perform its functions. The Board may make such expenditures as may be necessary for performing its functions. The Board shall maintain an office in charge of its secretary in the District of Columbia, which shall be open on all business days for the receipt of petitions for review and the transaction of other business of the Board. The Board shall prescribe regulations and procedures for the conduct of its business which will provide for summary disposition, with the utmost expedition consistent with sound decision, of petitions filed with the Board.

“(3) A petition made under subsection (g) (3) shall specifically state the grounds upon which the petitioning industry advisory committee believes that maximum prices on the commodity involved should be removed. A copy of such petition shall forthwith be served on the

Administrator or the Secretary, as the case may be, who shall within such time as may be fixed by the Board certify and file with the Board a transcript of such portions of the proceedings in connection with the petition under subsection (g) as are material. Such transcript shall include a statement in writing of the Administrator's or Secretary's reasons for believing that maximum prices on the commodity involved should not be removed, together with a statement of any economic data or other facts of which he has taken official notice. At the earliest practicable time the Board shall conduct a hearing upon the petition, at which the Administrator or the Secretary, as the case may be, and the committee shall be given an opportunity to present their views and argument orally or in writing. If application is made to the Board by either party for leave to introduce additional evidence, the Board may permit such evidence to be introduced or filed with it if it deems it material and determines that such evidence could not reasonably have been offered or included in the proceedings under subsection (g). At the earliest practicable time after the hearing on any petition, the Board shall make and issue an order specifying the extent, if any, to which maximum prices on the commodity involved shall be removed. The Board shall order the removal of such maximum prices if and to the extent that in its judgment the standards of decontrol stated in subsection (d) or (e) have been satisfied with respect to the commodity involved. The Administrator shall remove maximum prices with respect to the commodity in question within such time and to such extent as shall be specified in the order of the Board. commodity are not in effect under the Emergency Price Control Act of 1942, as amended, or the Stabilization Act of 1942, as amended: *Provided*, That subsidies with respect to petroleum produced from stripper wells shall be continued at not to exceed the existing rates. No subsidy or purchase and sale operation shall be undertaken under authority of this subparagraph (4) with respect to any commodity unless a subsidy or purchase and sale operation with respect to such commodity was in effect on June 29, 1946; and no such operation shall be undertaken under authority of this subparagraph (4) which will increase the rate of subsidy paid or the rate of loss incurred with respect to any commodity above that which would be paid or incurred if the operations in effect on June 29, 1946, had been continued on the same basis.

(b) When any direct or indirect subsidy to an industry is reduced or terminated, or upon recontrol is not restored or is restored only in part, any maximum price applicable to the product affected shall be correspondingly increased, except in the case of transportation subsidies, differential subsidies to high-cost producers, and premium payments under authority of the Veterans' Emergency Housing Act of 1946.

(c) Where roll-back subsidies have previously been or presently are in effect, and have been discontinued, or shall hereafter be discontinued, the industries which have received such subsidies shall be permitted to increase their ceiling prices at least an amount equivalent to the amount of the discontinued roll-back subsidy. Such price increase shall become effective either upon discontinuance of the roll-back subsidy or upon passage of this Act, whichever date is the later. For the purposes of this paragraph, the term "roll-back subsidies" means subsidy payments, or purchases and sales of a commodity at a loss by the Government of the United States (including any Government-owned or controlled corporation), or contracts therefor, which resulted directly or indirectly in the lowering of ceiling prices below the maximum price levels established by the Office of Price Administration prior to the institution of the subsidy payments or purchases and sales at a loss, or the execution of the contracts therefor, whichever date is the earlier.

(d) Nothing in this section shall be construed to affect the provisions of Public Laws 30, 88, 164, and 328 of the Seventy-ninth Congress, or to prevent the use of the sums authorized in such laws to fulfill obligations incurred prior to July 1, 1946, with respect to operations prior to such date.

(e) Notwithstanding any of the foregoing provisions of this section 6, 1946 and 1947 crop program operations with respect to sugar, may, while maximum prices are in effect with respect to sugar, be continued until such crops are processed and distributed, and the cost of 1946 crop program operations with respect to sugar may be charged to the funds authorized by Public Law 30, Seventy-ninth Congress, as amended by Public Law 328, Seventy-ninth Congress. For the purpose of this section 6, no subsidy program operation on sugar shall be considered to be a new subsidy: *Provided*, That Commodity Credit Corporation or any other Government agency shall not absorb any increase in the price paid for Cuban sugar over 3.675 cents per pound, raw basis, f. o. b. Cuba, as being paid for such sugar, in Cuba, on June 30, 1946.

(f) Nothing in this section shall be construed as a limitation upon operations authorized by the Veterans' Emergency Housing Act of 1946; and nothing in this Act or in any other Act shall prohibit the establishment of maximum sales prices or maximum rents for housing accommodations for which materials or facilities are allocated, or

priorities for delivery thereof issued, under said Veterans' Emergency Housing Act of 1946.

SEC. 7. Section 2 (i) of the Emergency Price Control Act of 1942, as amended, is amended to read as follows:

"(i) For the purposes of this Act and the Stabilization Act of 1942, as amended, fish and other sea food shall be deemed to be agricultural commodities, and commodities processed or manufactured in whole or substantial part from fish or other sea foods shall be deemed to be manufactured in whole or substantial part from agricultural commodities: *Provided*, That the provisions of section 3 of the Stabilization Act of 1942, as amended, shall not be applicable with respect to fish and other sea foods and commodities processed or manufactured in whole or substantial part therefrom, but the maximum price established for any fish or sea food commodity or for any commodity processed or manufactured in whole or substantial part therefrom shall not be below the average price therefor in the year 1942."

SEC. 8. Section 2 (j) of the Emergency Price Control Act of 1942, as amended, is amended by inserting before the period at the end thereof a semicolon and the following: "or (5) as authorizing any regulation or order of the Administrator to fix a quantity or percentage of any product which any seller may sell to any buyer".

SEC. 9. Section 2 (k) of the Emergency Price Control Act of 1942, as amended, is amended by inserting the words "or any operator of any service establishment" after the words "seller of goods at retail".

SEC. 10. Section 2 of the Emergency Price Control Act of 1942, as amended, is amended by adding at the end thereof the following new subsections:

"(o) No maximum price shall be applicable to any item served in any restaurant or other eating establishment if such item consists in whole or major part of a commodity to which no maximum price is applicable with respect to sales to restaurants and other eating establishments, unless the maximum price of such item, when sold by such restaurant or other eating establishment, is determined, under the applicable maximum price regulation or order, by the addition of a customary margin to the acquisition cost of such item.

"(p) After July 1, 1946, no maximum price regulation or order shall be issued or continued in effect requiring any seller to limit his sales by any weighted average price limitation based on his previous sales.

"(q) In the case of any retail industry, the principal sales of which consisted during the calendar years 1939 to 1941, inclusive, of sales of a commodity or commodities the production or retail distribution of which has been reduced, for a period of three years beginning on or after March 2, 1942, by 75 per centum or more below such production or retail distribution for the calendar years 1939 to 1941, inclusive, as a result of the operation of any governmental regulation or restriction, the Administrator shall not, in establishing maximum prices under this section, reduce established peacetime retail trade discounts or mark-ups or dealer handling charges for any such commodity before the retail unit sales of such commodity for a period of six months shall have reached the average annual retail unit sales thereof for the calendar years 1939 to 1941, inclusive.

"(r) In the case of any wholesale industry, the principal sales of which consisted during the calendar years 1939 to 1941, inclusive, of sales of a commodity or commodities, the production or wholesale distribution of which has been reduced for a period of three years beginning on or after March 2, 1942, by 75 per centum or more below such production or wholesale distribution for the calendar years 1939 to

As used in this subsection the term 'new commodity' means a commodity which was not commercially or industrially available prior to January 30, 1942.

"(1) an actual reduction of the importation of such commodity into the United States in an amount substantial in relation to the total consumption of the commodity in the United States; or

"(2) the substantial curtailment or restriction of the domestic trade in such commodity or products processed directly therefrom,

the Administrator shall, in order to maintain and increase domestic

production and employment and to make possible the balancing of supply and demand, promptly remove maximum purchase prices from imports of such commodity and maximum prices from products processed directly therefrom, or increase the maximum prices of imports of such commodity and of products processed directly therefrom to the extent necessary to prevent such reduction in importation or curtailment of domestic trade."

SEC. 11. The Emergency Price Control Act of 1942, as amended, is amended by inserting after section 5 thereof the following new section:

"SEC. 6. (a) For the purposes of this section the base period shall be the calendar year 1940, or in the case of an industry customarily keeping its accounts on a fiscal year basis, the industry's fiscal year 1940.

"(b) In order that adequate general price levels shall be established for all commodities to bring about maximum production and employment, no maximum prices shall be established or maintained for any product of a producing, manufacturing, or processing industry (including any industry furnishing service or transportation the charges for which are subject to the Administrator's control) which do not return on the average to the industry not less than the average dollar price of such product during the base period, plus the average increase in cost of producing, manufacturing, or processing the same accruing since the base period, but the maximum prices for a product shall be deemed in compliance with this standard if such prices on the average are equal to the average current total cost of the product plus the industry's average over-all profit margin on sales in the base period.

"(c) For the purpose of determining costs under this section, currently or for the base period, the Administrator shall ascertain the costs of a reasonable number of typical producers, manufacturers, or processors and shall follow accepted methods of accounting and such fair and reasonable methods of calculation as he shall establish by regulation, including adjustments for temporary cost abnormalities which may be reasonably anticipated to be eliminated within the three months following the Administrator's determination, and adjustments for increases in the volume of production which may be reasonably anticipated to be experienced within such three-month period.

"(d) Maximum prices established hereunder shall not be held invalid on account of their failure to return his costs to any particular member of any group involved.

"(e) Nothing herein shall nullify the power of the Administrator to make reasonable adjustments and exceptions in individual cases under the provisions of section 2 (c) of this Act.

"(f) If the maximum prices of a product on the average equal its average current total cost plus a reasonable profit, nothing herein shall require any further adjustment of such maximum prices for any period with respect to which it appears that a substantial expansion in the production or use of the product would not be practicable or would be practicable only by reducing the production of at least equally needed products.

"(g) As used in this section, 'product' shall mean any major item, or any article different in character from other products of the industry; but all the styles, models, or other varieties of any such item or article shall be considered as one product.

JOINT RESOLUTION

To authorize the making of settlement on account of certain currency destroyed at Fort Mills, Philippine Islands, and for other purposes.

July 27, 1946
[H. J. Res. 321]
[Public Law 559]

Whereas during the emergency in the Philippine Islands at the time of the Japanese invasion, agents of the United States High Commissioner, acting under a delegation of authority from the President of the United States and the specific instructions of the Secretary of the Treasury, accepted sums of United States paper currency from banks, individuals, and the Government of the Commonwealth of the Philippine Islands, and destroyed this currency by incineration to preclude its seizure by the enemy; and

Destruction of certain currency in Philippine Islands.

Whereas the face value of the currency so destroyed was reported to be \$2,563,981 and due to the difficult circumstances under which the program was undertaken, including lack of facilities, exposure to incessant enemy attack, and lack of personnel familiar with the technical details imposed by law with respect to the separate accounting for various kinds of currency, it was not possible to record in full detail the description of the currency which was burned; and

Whereas the United States Treasury is assured that the aggregate amount of currency destroyed is correct as reported by the High Commissioner and his staff with respect to the procedures followed in accepting deposits and in verifying the count in each such deposit and that the distribution by denomination and depositor is accurate; and

Whereas \$603,158 of the total currency destroyed cannot be identified from the information available to the Treasury Department as to kind of currency and, in the case of Federal Reserve notes, as to bank of issue; and

Whereas the currency has been destroyed and it appears that no further information will become available: Therefore be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That, notwithstanding any provisions of law to the contrary, the Treasurer of the United States or the Comptroller of the Currency, as the case may be, is authorized and directed, on the basis of the receipt of evidence of destruction acceptable to the Secretary of the Treasury, to record the destruction of the United States currency and Federal Reserve notes delivered to the High Commissioner to the Philippine Islands at the time of the Japanese invasion to preclude its seizure by the enemy, in the aggregate amount of \$603,158, as follows: Silver certificates, \$202,502 of \$1 denomination, \$51,200 of \$5 denomination, and \$300 of \$10 denomination, aggregating \$254,002; United States notes, \$8,796 of \$2 denomination and \$25,590 of \$5 denomination, aggregating \$34,386; and Federal Reserve notes, \$1,170 of \$5 denomination, \$126,360 of \$10 denomination, \$185,840 of \$20 denomination, \$400 of \$50 denomination, and \$1,000 of \$100 denomination, aggregating \$314,770, which shall be

The several Federal Reserve banks shall respectively reimburse the Federal Reserve redemption fund for the amounts paid by the Treasurer of the United States from said fund pursuant to this section, in the following amounts: Federal Reserve Bank of Boston, \$205; Federal Reserve Bank of New York, \$4,555; Federal Reserve Bank of Philadelphia, \$150; Federal Reserve Bank of Cleveland, \$195; Federal Reserve Bank of Richmond, \$480; Federal Reserve Bank of Atlanta, \$250; Federal Reserve Bank of Chicago, \$290; Federal Reserve Bank of St. Louis, \$55; Federal Reserve Bank of Minneapolis, \$120; Federal Reserve Bank of Kansas City, \$270; Federal Reserve Bank of Dallas, \$300; and Federal Reserve Bank of San Francisco, \$307,900.

as provided in section 4 hereof. Any such agency is hereby authorized to convey to the State, or to the appropriate subdivision thereof, without cost, such easements and rights-of-way in its custody or over lands of the United States in its custody and control as may be necessary, convenient, or proper for the location, construction, and maintenance of the approach roads referred to in this section, including such roadside parks or recreational areas of limited size as may be deemed necessary for the accommodation of the traveling public. Any bridge constructed pursuant to this Act upon and across a dam in the custody and jurisdiction of any agency of the United States, including such portion thereof, if any, as may extend beyond the physical limits of the dam, shall constitute and remain a part of said dam and be maintained by the agency: *Provided, however*, That any such agency may enter into any such contracts and agreements with the State or its subdivisions respecting public use of any bridge so located and constructed as may be deemed appropriate, but no such bridge shall be closed to public use by the agency except in cases of emergency or when deemed necessary in the interest of national security.

All costs and expenses incurred and expenditures made by any agency in the exercise of the powers and authority conferred by this Act (but not including any costs, expenses, or expenditures which would have been required in any event to satisfy a legal road or bridge relocation obligation or to meet operating or other agency needs) shall be recorded and kept separate and apart from the other costs, expenses, and expenditures of such agency, and no portion thereof shall be charged or allocated to flood control, navigation, irrigation, fertilizer production, the national defense, the development of power, or other program, purpose, or function of such agency.

SEC. 4. Not to exceed \$10,000,000 of any money heretofore or hereafter appropriated for expenditure in accordance with the provisions of the Federal Highway Act (42 Stat. 212), as amended and supplemented, shall be available for expenditure by the Commissioner of Public Roads in accordance with the provisions of this Act, as an emergency fund, to reimburse any agency for any additional costs or expenditures which it may be required to incur because of the design and construction of any such dam so that it will constitute and serve as a foundation for a public highway bridge upon and across such dam and to reimburse any such agency for any costs, expenses, or expenditures which it may be required to make in designing and constructing any such bridge upon and across a dam in accordance with the provisions of this Act, except such costs, expenses, or expenditures as would have been required of such agency in any event to satisfy a legal obligation to relocate a highway or bridge or to meet operating or other agency needs, and there is hereby authorized to be appropriated any sum or sums necessary to reimburse the funds so expended by the Commissioner of Public Roads from time to time under the authority of this section. Of each bridge constructed upon and across a dam under the provisions of this Act, there may be financed wholly with Federal funds that portion thereof which is located within the physical limits of the masonry structure, or structures, of the dam, and the Commissioner of Public Roads shall in his sole discretion determine what additional portion of the bridge, if any, may be so financed, such determination to be final and conclusive. AN ACT

To amend the Railroad Retirement Acts, the Railroad Unemployment Insurance Act, and subchapter B of chapter 9 of the Internal Revenue Code; and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

DIVISION I

SECTION 1. Section 1 (c) of the Railroad Retirement Act of 1937, section 1 (e) of the Railroad Unemployment Insurance Act, and section 1532 (d) of the Internal Revenue Code are each amended as follows: After the word "if" where it first appears therein insert "(i)" and for the phrase "which services he renders for compensation" substitute the following: "or he is rendering professional or technical services and is integrated into the staff of the employer, or he is rendering, on the property used in the employer's operations, other personal services the rendition of which is integrated into the employer's operations, and (ii) he renders such service for compensation"; and for the purpose of continuing the amendment of the Railroad Retirement Act of 1937, only, add after the word "compensation" the following: "; or a method of computing the monthly compensation for such service is provided in section 3 (c)". Said subsections are further amended by inserting at the end of the first proviso the following: "; and if the application of such mileage formula, or such other formula as the Board may prescribe, would result in the compensation of the individual being less than 10 per centum of his remuneration for such service no part of such remuneration shall be regarded as compensation".

SEC. 2. Section 1 (h) of the Railroad Retirement Act of 1937 is amended by substituting for the words "earned by" the words "paid to", and section 1 (i) of the Railroad Unemployment Insurance Act is amended by substituting for the word "payable" the word "paid"; and by inserting at the end of said section 1 (h) of the Railroad Retirement Act of 1937 and at the end of said section 1 (i) of the Railroad Unemployment Insurance Act, the following: "A payment made by an employer to an individual through the employer's pay roll shall be presumed, in the absence of evidence to the contrary, to be compensation for service rendered by such individual as an employee of the employer in the period with respect to which the payment is made. An employee shall be deemed to be paid, 'for time lost' the amount he is paid by an employer with respect to an identifiable period of absence from the active service of the employer, including absence on account of personal injury, and the amount he is paid by the employer for loss of earnings resulting from his displacement to a less remunerative position or occupation. If a payment is made by an employer with respect to a personal injury and includes pay for time lost, the total payment shall be deemed to be paid for time lost unless, at the time of payment, a part of such payment is specifically apportioned to factors other than time lost, in which event only such part of the payment as is not so apportioned shall be deemed to be paid for time lost. Compensation earned in any calendar month before 1947 shall be deemed paid in such month regardless of whether or when payment will have been in fact made, and compensation earned in any calendar year after 1946 but paid after the end of such calendar year shall be deemed to be compensation paid in the calendar year in which it will have been earned if it is so reported by the employer before February 1 of the next succeeding calendar year or, if the employee

"4. Individuals having a current connection with the railroad industry, and whose permanent physical or mental condition is such as to be disabling for work in their regular occupation, and who (i) will have completed twenty years of service or (ii) will have attained the age of sixty. The Board, with the cooperation of employers and employees, shall secure the establishment of standards determining the physical and mental conditions which permanently disqualify employees for work in the several occupations in the railroad industry, and the Board, employers, and employees shall cooperate in the promotion of the greatest practicable degree of uniformity in the standards applied by the several employers. An individual's condition shall be deemed to be disabling for work in his regular occupation if he will have been disqualified by his employer because of disability for service in his regular occupation in accordance with the applicable standards so established; if the employee will not have been so disqualified by his employer, the Board shall determine whether his condition is disabling for work in his regular occupation in accordance with the standards generally established; and, if the employee's regular occupation is not one with respect to which standards will have been established, the standards relating to a reasonably comparable occupation shall be used. If there is no such comparable occupation, the Board shall determine whether the employee's condition is disabling for work in his regular occupation by determining whether under the practices generally prevailing in industries in which such occupation exists such condition is a permanent disqualification for work in such occupation. For the purposes of this section, an employee's 'regular occupation' shall be deemed to be the occupation in which he will have been engaged in more calendar months than the calendar months in which he will have been engaged in any other occupation during the last preceding five calendar years, whether or not consecutive, in each of which years he will have earned wages or salary, except that, if an employee establishes that during the last fifteen consecutive calendar years he will have been engaged in another occupation in one-half or more of all the months in which he will have earned wages or salary, he may claim such other occupation as his regular occupation; or

If the individual fails to comply with the requirements prescribed by the Board as to proof of the continuance of the disability until he attains the age of sixty-five years, his right to an annuity by reason of such disability shall, except for good cause shown to the Board, cease, but without prejudice to his rights to any subsequent annuity to which he may be entitled. If before attaining the age of sixty-five an employee in receipt of an annuity under paragraph 4 or 5 is found by the Board to be no longer disabled as provided in said paragraphs his annuity shall cease upon the last day of the month in which he ceases to be so disabled. An employee, in receipt of such annuity, who earns more than \$75 in service for hire, or in self-employment, in each of any six consecutive calendar months, shall be deemed to cease to be so disabled in the last of such six months; and such employee shall report to the Board immediately all such service for hire, or such self-employment. If after cessation of his disability annuity the employee will have acquired additional years of service, such additional years of service may be credited to him with the same effect as if no annuity had previously been awarded to him."

In computing the monthly compensation, no part of any month's compensation in excess of \$300 shall be recognized."

"(b) **WIDOW'S CURRENT INSURANCE ANNUITY.**—A widow of a completely or partially insured employee, who is not entitled to an annuity under subsection (a) and who at the time of filing an application for an annuity under this subsection will have in her care a child of such employee entitled to receive an annuity under subsection (c) shall be entitled to an annuity for each month equal to three-fourths of the employee's basic amount. Such annuity shall cease upon her death, upon her remarriage, when she becomes entitled to an annuity under subsection (a), or when no child of the deceased employee is entitled to receive an annuity under subsection (c), whichever occurs first.

"(c) **CHILD'S INSURANCE ANNUITY.**—Every child of an employee who will have died completely or partially insured shall be entitled, for so long as such child lives and meets the qualifications set forth in paragraph (1) of subsection (1), to an annuity for each month equal to one-half of the employee's basic amount.

"(d) **PARENT'S INSURANCE ANNUITY.**—Each parent, sixty-five years of age or over, of a completely insured employee, who will have died leaving no widow and no child, shall be entitled, for life, or, if such parent remarries after the employee's death, then until such remarriage, to an annuity for each month equal to one-half of the employee's basic amount.

been determined by the Board, and who will have been living on the date of such determination: to the widow or widower of the deceased; or, if no such widow or widower be then living, to any child or children of the deceased and to any other person or persons who, under the intestacy law of the State where the deceased will have been domiciled, will have been entitled to share as distributees with such children of the deceased, in such proportions as is provided by such law; or, if no widow or widower and no such child and no such other person be then living, to the parent or parents of the deceased, in equal shares. A person who is entitled to share as distributee with an above-named relative of the deceased shall not be precluded from receiving a payment under this subsection by reason of the fact that no such named relative will have survived the deceased or of the fact that no such named relative of the deceased will have been living on the date of such determination. If none of the persons described in this subsection be living on the date of such determination, such amount shall be paid to any person or persons, equitably entitled thereto, to the extent and in the proportions that he or they shall have paid the expenses of burial of the deceased. If a lump sum would be payable to a widow, child, or parent under this subsection except for the fact that a survivor will have been entitled to receive an annuity for the month in which the employee will have died, but within one year after the employee's death there will not have accrued to survivors of the employee, by reason of his death annuities which, after all deductions pursuant to paragraph (1) of subsection (i) will have been made, are equal to such lump sum, a payment to any then surviving widow, children, or parents shall nevertheless be made under this subsection equal to the amount by which such lump sum exceeds such annuities so accrued after such deductions. No payment shall be made to any person under this subsection, unless application therefor shall have been filed, by or on behalf of any such person (whether or not legally competent), prior to the expiration of two years after the date of death of the deceased employee, except that if the deceased employee is a person to whom section 2 of the Act of March 7, 1942 (56 Stat. 143, 144), is applicable such two years shall run from the date on which the deceased employee, pursuant to said Act, is determined to be dead, and for all other purposes of this section such employee, so long as it does not appear that he is in fact alive, shall be deemed to have died on the date determined pursuant to said Act to be the date or presumptive date of death.

“(g) CORRELATION OF PAYMENTS.—(1) An individual, entitled on applying therefor to receive for a month before January 1, 1947, an insurance benefit under the Social Security Act on the basis of an employee's wages, which benefit is greater in amount than would be an annuity for such individual under this section with respect to the death of such employee, shall not be entitled to such annuity. An individual, entitled on applying therefor to any annuity or lump sum under this section with respect to the death of an employee, shall not be entitled to a lump-sum death payment or, for a month beginning on or after January 1, 1947, to any insurance benefits under the Social Security Act on the basis of the wages of the same employee.

“(2) A widow or child, otherwise entitled to an annuity under this section, shall be entitled only to that part of such annuity for a month which exceeds the total of any retirement annuity, and insurance benefit under the Social Security Act to which such widow or child would be entitled for such month on proper application

therefor. A parent, otherwise entitled to an annuity under this section, shall be entitled only to that part of such annuity for a month which exceeds the total of any other annuity under this section, retirement annuity, and insurance benefit under the Social Security Act to which such parent would be entitled for such month on proper application therefor.

Parent.

“(h) **MAXIMUM AND MINIMUM ANNUITY TOTALS.**—Whenever according to the provisions of this section as to annuities, payable for a month with respect to the death of an employee, the total of annuities is more than \$20 and exceeds either (a) \$120, or (b) an amount equal to twice such employee's basic amount, or with respect to employees other than those who will have been completely insured solely by virtue of subsection (1) (7) (iii), such total exceeds (c) an amount equal to 80 per centum of his average monthly remuneration, whichever of such amounts is least, such total of annuities shall, prior to any deductions under subsection (i), be reduced to such least amount or to \$20, whichever is greater. Whenever such total of annuities is less than \$10, such total shall, prior to any deductions under subsection (i), be increased to \$10.

Post, p. 734.

“(i) **DEDUCTIONS FROM ANNUITIES.**—(1) Deductions shall be made from any payments under this section to which an individual is entitled, until the total of such deductions equals such individual's annuity or annuities under this section for any month in which such individual—

“(i) will have rendered compensated service within or without the United States to an employer;

“(ii) will have rendered service for wages of not less than \$25;

“(iii) if a child under eighteen and over sixteen years of age, will have failed to attend school regularly and the Board finds that attendance will have been feasible; or

“(iv) if a widow otherwise entitled to an annuity under subsection (b) will not have had in her care a child of the deceased employee entitled to receive an annuity under subsection (c);

“(2) The total of deductions for all events described in paragraph (1) occurring in the same month shall be limited to the amount of such individual's annuity or annuities for that month. Such individual (or anyone in receipt of an annuity in his behalf) shall report to the Board the occurrence of any event described in paragraph (1).

“(3) Deductions shall also be made from any payments under this section with respect to the death of an employee until such deductions total—

AN ACT

August 1, 1946

[S. 1636]

[Public Law 584]

To amend the Surplus Property Act of 1944 to designate the Department of State as the disposal agency for surplus property outside the continental United States, its Territories and possessions, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That section 10 of the Surplus Property Act of 1944, as amended, is hereby amended by adding a new subsection (c) to read as follows:

"(c) Except as provided in subsection (b) of this section, the Department of State shall be the sole disposal agency for surplus property located outside the continental United States, Hawaii, Alaska (including the Aleutian Islands), Puerto Rico, and the Virgin Islands, and with respect to such property the Secretary of State shall exercise the functions heretofore conferred upon the Surplus Property Administrator by Public Law 181, Seventy-ninth Congress. The Secretary of State shall, subject to the provisions of the War Mobilization and Reconversion Act of 1944, have sole responsibility for carrying out the provisions of the Surplus Property Act of 1944, with respect to surplus property located outside the continental United States, Hawaii, Alaska (including the Aleutian Islands), Puerto Rico, and the Virgin Islands."

SEC. 2. Section 32 (b) of such Act, as amended, is hereby amended to read as follows:

"(b) (1) The provisions of this Act shall be applicable to disposition of property within the United States and elsewhere, but the Secretary of State may exempt from some or all of the provisions hereof dispositions of property located outside of the continental United States, Hawaii, Alaska (including the Aleutian Islands), Puerto Rico, and the Virgin Islands, whenever he deems that such provisions would obstruct the efficient and economic disposition of such property in accordance with the objectives of this Act. In addition to the authority conferred by section 15 of this Act, the Department of State may dispose of surplus property located outside the continental United States, Hawaii, Alaska (including the Aleutian Islands), Puerto Rico, and the Virgin Islands, for foreign currencies or credits, or substantial benefits or the discharge of claims resulting from the compromise, or settlement of such claims by any Government agency in accordance with the law, whenever the Secretary of State determines that it is in the interest of the United States to do so and upon such terms and conditions as he may deem proper. Any foreign currencies or credits acquired by the Department of State pursuant to this subsection shall be administered in accordance with procedures that may from time to time be established by the Secretary of the Treasury and, if and when reduced to United States currency, shall be covered into the Treasury as miscellaneous receipts.

"(2) In carrying out the provisions of this section, the Secretary of State is hereby authorized to enter into an executive agreement or agreements with any foreign government for the use of currencies, or credits for currencies, of such government acquired as a result of such surplus property disposals, for the purpose of providing, by the formation of foundations or otherwise, for (A) financing studies, research, instruction, and other educational activities of or for American citizens in schools and institutions of higher learning located in such foreign country, or of the citizens of such foreign country in American schools and institutions of higher learning located outside the continental United States, Hawaii, Alaska (including the Aleutian Islands), Puerto Rico, and the Virgin Islands, including payment for transportation, tuition, maintenance, and other

AN ACT

For the development and control of atomic energy.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

DECLARATION OF POLICY

SECTION 1. (a) FINDINGS AND DECLARATION.—Research and experimentation in the field of nuclear chain reaction have attained the stage at which the release of atomic energy on a large scale is practical. The significance of the atomic bomb for military purposes is evident. The effect of the use of atomic energy for civilian purposes upon the social, economic, and political structures of today cannot now be determined. It is a field in which unknown factors are involved. Therefore, any legislation will necessarily be subject to revision from

August 1, 1946

[S. 1717]

[Public Law 585]

Atomic Energy Act of 1946.

time to time. It is reasonable to anticipate, however, that tapping this new source of energy will cause profound changes in our present way of life. Accordingly, it is hereby declared to be the policy of the people of the United States that, subject at all times to the paramount objective of assuring the common defense and security, the development and utilization of atomic energy shall, so far as practicable, be directed toward improving the public welfare, increasing the standard of living, strengthening free competition in private enterprise, and promoting world peace.

Major programs.

(b) PURPOSE OF ACT.—It is the purpose of this Act to effectuate the policies set out in section 1 (a) by providing, among others, for the following major programs relating to atomic energy:

Private research.

(1) A program of assisting and fostering private research and development to encourage maximum scientific progress;

Control of information.

(2) A program for the control of scientific and technical information which will permit the dissemination of such information to encourage scientific progress, and for the sharing on a reciprocal basis of information concerning the practical industrial application of atomic energy as soon as effective and enforceable safeguards against its use for destructive purposes can be devised;

Federal research and development.

(3) A program of federally conducted research and development to assure the Government of adequate scientific and technical accomplishment;

Government control of material.

(4) A program for Government control of the production, ownership, and use of fissionable material to assure the common defense and security and to insure the broadest possible exploitation of the fields; and

Administration.

(5) A program of administration which will be consistent with the foregoing policies and with international arrangements made by the United States, and which will enable the Congress to be currently informed so as to take further legislative action as may hereafter be appropriate.

ORGANIZATION

SEC. 2. (a) ATOMIC ENERGY COMMISSION.—

Members.

(1) There is hereby established an Atomic Energy Commission (herein called the Commission), which shall be composed of five members. Three members shall constitute a quorum of the Commission. The President shall designate one member as Chairman of the Commission.

Appointment.

(2) Members of the Commission shall be appointed by the President, by and with the advice and consent of the Senate. In submitting any nomination to the Senate, the President shall set forth the experience and the qualifications of the nominee. The term of office of each member of the Commission taking office prior to the expiration of two years after the date of enactment of this Act shall expire upon the expiration of such two years. The term of office of each member of the Commission taking office after the expiration of two years from the date of enactment of this Act shall be five years, except that (A) the terms of office of the members first taking office after the expiration of two years from the date of enactment of this Act shall expire, as designated by the President at the time of appointment, one at the end of three years, one at the end of four years, one at the end of five years, one at the end of six years, and one at the end of seven years, after the date of enactment of this Act; and (B) any member appointed to fill a vacancy occurring prior to the expiration of the term for which his predecessor was appointed, shall be appointed for the remainder of such term. Any member of the Commission may be removed by the President for inefficiency, neglect of duty, or

Term of office.

malfeasance in office. Each member, except the Chairman, shall receive compensation at the rate of \$15,000 per annum; and the Chairman shall receive compensation at the rate of \$17,500 per annum. No member of the Commission shall engage in any other business, vocation, or employment than that of serving as a member of the Commission.

(3) The principal office of the Commission shall be in the District of Columbia, but the Commission or any duly authorized representative may exercise any or all of its powers in any place. The Commission shall hold such meetings, conduct such hearings, and receive such reports as may be necessary to enable it to carry out the provisions of this Act.

(4) There are hereby established within the Commission—

(A) a General Manager, who shall discharge such of the administrative and executive functions of the Commission as the Commission may direct. The General Manager shall be appointed by the President by and with the advice and consent of the Senate, and shall receive compensation at the rate of \$15,000 per annum. The Commission may make recommendations to the President with respect to the appointment or removal of the General Manager.

(B) a Division of Research, a Division of Production, a Division of Engineering, and a Division of Military Application. Each division shall be under the direction of a Director who shall be appointed by the Commission, and shall receive compensation at the rate of \$14,000 per annum. The Director of the Division of Military Application shall be a member of the armed forces. The Commission shall require each such division to exercise such of the Commission's powers under this Act as the Commission may determine, except that the authority granted under section 3 (a) of this Act shall not be exercised by the Division of Research.

(b) **GENERAL ADVISORY COMMITTEE.**—There shall be a General Advisory Committee to advise the Commission on scientific and technical matters relating to materials, production, and research and development, to be composed of nine members, who shall be appointed from civilian life by the President. Each member shall hold office for a term of six years, except that (1) any member appointed to fill a vacancy occurring prior to the expiration of the term for which his predecessor was appointed, shall be appointed for the remainder of such term; and (2) the terms of office of the members first taking office after the date of the enactment of this Act shall expire, as designated by the President at the time of appointment, three at the end of two years, three at the end of four years, and three at the end of six years, after the date of the enactment of this Act. The Committee shall designate one of its own members as Chairman. The Committee shall meet at least four times in every calendar year. The members of the Committee shall receive a per diem compensation of \$50 for each day spent in meetings or conferences, and all members shall receive their necessary traveling or other expenses while engaged in the work of the Committee.

(c) **MILITARY LIAISON COMMITTEE.**—There shall be a Military Liaison Committee consisting of representatives of the Departments of War and Navy, detailed or assigned thereto, without additional compensation, by the Secretaries of War and Navy in such number as they may determine. The Commission shall advise and consult with the Committee on all atomic energy matters which the Committees deems to relate to military applications, including the development, manufacture, use, and storage of bombs, the allocation of fissionable material for military research, and the control of information relating to the manufacture or utilization of atomic weapons. The Committee shall have authority to make written recommendations to the Commission on matters relating to military applications from time to time as it may deem appropriate. If the Committee at any time concludes that any action, proposed action, or failure to act of the Commission on such matters is adverse to the responsibilities of the Departments of War or Navy, derived from the Constitution, laws, and treaties, the Committee may refer such action, proposed action, or failure to act to the Secretaries of War and Navy. If either Secretary concurs, he may refer the matter to the President, whose decision shall be final.

(d) APPOINTMENT OF ARMY AND NAVY OFFICERS.—Notwithstanding the provisions of section 1222 of the Revised Statutes (U. S. C., 1940 edition, title 10, sec. 576), section 212 of the Act entitled "An Act making appropriations for the Legislative Branch of the Government for the fiscal year ending June 30, 1933, and for other purposes", approved June 30, 1932, as amended (U. S. C., 1940 edition, title 5, sec. 59a), section 2 of the Act entitled "An Act making appropriations for the legislative, executive, and judicial expenses of the Government for the fiscal year ending June thirtieth, eighteen hundred and ninety-five, and for other purposes", approved July 31, 1894, as amended (U. S. C., 1940 edition, title 5, sec. 62), or any other law, any active or retired officer of the Army or the Navy may serve as Director of the Division of Military Application established by subsection (a) (4) (B) of this section, without prejudice to his commissioned status as such officer. Any such officer serving as Director of the Division of Military Application shall receive, in addition to his pay from the United States as such officer, an amount equal to the difference between such pay and the compensation prescribed in subsection (a) (4) (B) of this section.

RESEARCH

Authority of Commission.

SEC. 3. (a) RESEARCH ASSISTANCE.—The Commission is directed to exercise its powers in such manner as to insure the continued conduct of research and development activities in the fields specified below by private or public institutions or persons and to assist in the acquisition of an ever-expanding fund of theoretical and practical knowledge in such fields. To this end the Commission is authorized and directed to make arrangements (including contracts, agreements, and loans) for the conduct of research and development activities relating to—

- (1) nuclear processes;
- (2) the theory and production of atomic energy, including processes, materials, and devices related to such production;
- (3) utilization of fissionable and radioactive materials for medical, biological, health, or military purposes;
- (4) utilization of fissionable and radioactive materials and processes entailed in the production of such materials for all other purposes, including industrial uses; and
- (5) the protection of health during research and production activities.

Post, p. 809.

The Commission may make such arrangements without regard to the provisions of section 3709 of the Revised Statutes (U. S. C., title 41, sec. 5) upon certification by the Commission that such action is necessary in the interest of the common defense and security, or upon a showing that advertising is not reasonably practicable, and may make partial and advance payments under such arrangements, and may make available for use in connection therewith such of its equipment and facilities as it may deem desirable. Such arrangements shall contain such provisions to protect health, to minimize danger from explosion

and other hazards to life or property, and to require the reporting and to permit the inspection of work performed thereunder, as the Commission may determine; but shall not contain any provisions or conditions which prevent the dissemination of scientific or technical information, except to the extent such dissemination is prohibited by law.

(b) **RESEARCH BY THE COMMISSION.**—The Commission is authorized and directed to conduct, through its own facilities, activities and studies of the types specified in subsection (a) above.

PRODUCTION OF FISSIONABLE MATERIAL

SEC. 4. (a) DEFINITION.—As used in this Act, the term “produce”, when used in relation to fissionable material, means to manufacture, produce, or refine fissionable material, as distinguished from source materials as defined in section 5 (b) (1), or to separate fissionable material from other substances in which such material may be contained or to produce new fissionable material.

(b) **PROHIBITION.**—It shall be unlawful for any person to own any facilities for the production of fissionable material or for any person to produce fissionable material, except to the extent authorized by subsection (c).

(c) **OWNERSHIP AND OPERATION OF PRODUCTION FACILITIES.**—

(1) **OWNERSHIP OF PRODUCTION FACILITIES.**—The Commission, as agent of and on behalf of the United States, shall be the exclusive owner of all facilities for the production of fissionable material other than facilities which (A) are useful in the conduct of research and development activities in the fields specified in section 3, and (B) do not, in the opinion of the Commission, have a potential production rate adequate to enable the operator of such facilities to produce within a reasonable period of time a sufficient quantity of fissionable material to produce an atomic bomb or any other atomic weapon.

(2) **OPERATION OF THE COMMISSION'S PRODUCTION FACILITIES.**—The Commission is authorized and directed to produce or to provide for the production of fissionable material in its own facilities. To the extent deemed necessary, the Commission is authorized to make, or to continue in effect, contracts with persons obligating them to produce fissionable material in facilities owned by the Commission. The Commission is also authorized to enter into research and development contracts authorizing the contractor to produce fissionable material in facilities owned by the Commission to the extent that the production of such fissionable material may be incident to the conduct of research and development activities under such contracts. Any contract entered into under this section shall contain provisions (A) prohibiting the contractor with the Commission from subcontracting any part of the work he is obligated to perform under the contract, except as authorized by the Commission, and (B) obligating the contractor to make such reports to the Commission as it may deem appropriate with respect to his activities under the contract, to submit to frequent inspection by employees of the Commission of all such activities, and to comply with all safety and security regulations which may be prescribed by the Commission. Any contract made under the provisions of this paragraph may be made without regard to the provisions of section 3709 of the Revised Statutes (U. S. C., title 41, sec. 5) upon certification by the Commission that such action is necessary in the interest of the common defense and security, or upon a showing that advertising is not reasonably practicable, and partial and advance

payments may be made under such contracts. The President shall determine at least once each year the quantities of fissionable material to be produced under this paragraph.

(3) **OPERATION OF OTHER PRODUCTION FACILITIES.**—Fissionable material may be produced in the conduct of research and development activities in facilities which, under paragraph (1) above, are not required to be owned by the Commission.

(d) **IRRADIATION OF MATERIALS.**—For the purpose of increasing the supply of radioactive materials, the Commission and persons lawfully producing or utilizing fissionable material are authorized to expose materials of any kind to the radiation incident to the processes of producing or utilizing fissionable material.

(e) **MANUFACTURE OF PRODUCTION FACILITIES.**—Unless authorized by a license issued by the Commission, no person may manufacture, produce, transfer, or acquire any facilities for the production of fissionable material. Licenses shall be issued in accordance with such procedures as the Commission may by regulation establish and shall be issued in accordance with such standards and upon such conditions as will restrict the production and distribution of such facilities to effectuate the policies and purposes of this Act. Nothing in this section shall be deemed to require a license for such manufacture, production, transfer, or acquisition incident to or for the conduct of research or development activities in the United States of the types specified in section 3, or to prohibit the Commission from manufacturing or producing such facilities for its own use.

CONTROL OF MATERIALS

SEC. 5. (a) FISSIONABLE MATERIALS.—

(1) **DEFINITION.**—As used in this Act, the term “fissionable material” means plutonium, uranium enriched in the isotope 235, any other material which the Commission determines to be capable of releasing substantial quantities of energy through nuclear chain reaction of the material, or any material artificially enriched by any of the foregoing; but does not include source materials, as defined in section 5 (b) (1).

(2) **GOVERNMENT OWNERSHIP OF ALL FISSIONABLE MATERIAL.**—All right, title, and interest within or under the jurisdiction of the United States, in or to any fissionable material, now or hereafter produced, shall be the property of the Commission, and shall be deemed to be vested in the Commission by virtue of this Act. Any person owning any interest in any fissionable material at the time of the enactment of this Act, or owning any interest in any material at the time when such material is hereafter determined to be a fissionable material, or who lawfully produces any fissionable material incident to privately financed research or development activities, shall be paid just compensation therefor. The Commission may, by action consistent with the provisions of paragraph (4) below, authorize any such person to retain possession of such fissionable material, but no person shall have any title in or to any fissionable material.

(3) **PROHIBITION.**—It shall be unlawful for any person, after sixty days from the effective date of this Act to (A) possess or transfer any fissionable material, except as authorized by the Commission, or (B) export from or import into the United States any fissionable material, or (C) directly or indirectly engage in the production of any fissionable material outside of the United States.

(4) **DISTRIBUTION OF FISSIONABLE MATERIAL.**—Without prejudice to its continued ownership thereof, the Commission is authorized to distribute fissionable material owned by it, with or without charge, to applicants requesting such material (A) for the conduct of research or development activities either independently or under contract or

Research.

other arrangement with the Commission, (B) for use in medical therapy, or (C) for use pursuant to a license issued under the authority of section 7. Such material shall be distributed in such quantities and on such terms that no applicant will be enabled to obtain an amount sufficient to construct a bomb or other military weapon. The Commission is directed to distribute sufficient fissionable material to permit the conduct of widespread independent research and development activity, to the maximum extent practicable. In determining the quantities of fissionable material to be distributed, the Commission shall make such provisions for its own needs and for the conservation of fissionable material as it may determine to be necessary in the national interest for the future development of atomic energy. The Commission shall not distribute any material to any applicant, and shall recall any distributed material from any applicant, who is not equipped to observe or who fails to observe such safety standards to protect health and to minimize danger from explosion or other hazard to life or property as may be established by the Commission, or who uses such material in violation of law or regulation of the Commission or in a manner other than as disclosed in the application therefor.

Post, p. 809.

(5) The Commission is authorized to purchase or otherwise acquire any fissionable material or any interest therein outside the United States, or any interest in facilities for the production of fissionable material, or in real property on which such facilities are located, without regard to the provisions of section 3709 of the Revised Statutes (U. S. C., title 41, sec. 5) upon certification by the Commission that such action is necessary in the interest of the common defense and security, or upon a showing that advertising is not reasonably practicable, and partial and advance payments may be made under contracts for such purposes. The Commission is further authorized to take, requisition, or condemn, or otherwise acquire any interest in such facilities or real property, and just compensation shall be made therefor.

(b) SOURCE MATERIALS.—

(1) DEFINITION.—As used in this Act, the term "source material" means uranium, thorium, or any other material which is determined by the Commission, with the approval of the President, to be peculiarly essential to the production of fissionable materials; but includes ores only if they contain one or more of the foregoing materials in such concentration as the Commission may by regulation determine from time to time.

(2) LICENSE FOR TRANSFERS REQUIRED.—Unless authorized by a license issued by the Commission, no person may transfer or deliver, receive possession of or title to, or export from the United States any source material after removal from its place of deposit in nature, except that licenses shall not be required for quantities of source materials which, in the opinion of the Commission, are unimportant.

(3) ISSUANCE OF LICENSES.—The Commission shall establish such standards for the issuance, refusal, or revocation of licenses as it may deem necessary to assure adequate source materials for production, research, or development activities pursuant to this Act or to prevent the use of such materials in a manner inconsistent with the national welfare. Licenses shall be issued in accordance with such procedures as the Commission may by regulation establish.

(4) REPORTING.—The Commission is authorized to issue such regulations or orders requiring reports of ownership, possession, extraction, refining, shipment, or other handling of source materials as it may deem necessary, except that such reports shall not be required with respect to (A) any source material prior to removal from its place of deposit in nature, or (B) quantities of source materials which in the

opinion of the Commission are unimportant or the reporting of which will discourage independent prospecting for new deposits.

Source materials.

(5) **ACQUISITION.**—The Commission is authorized and directed to purchase, take, requisition, condemn, or otherwise acquire, supplies of source materials or any interest in real property containing deposits of source materials to the extent it deems necessary to effectuate the provisions of this Act. Any purchase made under this paragraph may be made without regard to the provisions of section 3709 of the Revised Statutes (U. S. C., title 41, sec. 5) upon certification by the Commission that such action is necessary in the interest of the common defense and security, or upon a showing that advertising is not reasonably practicable, and partial and advance payments may be made thereunder. The Commission may establish guaranteed prices for all source materials delivered to it within a specified time. Just compensation shall be made for any property taken, requisitioned, or condemned under this paragraph.

(6) **EXPLORATION.**—The Commission is authorized to conduct and enter into contracts for the conduct of exploratory operations, investigations, and inspections to determine the location, extent, mode of occurrence, use, or conditions of deposits or supplies of source materials, making just compensation for any damage or injury occasioned thereby. Such exploratory operations may be conducted only with the consent of the owner, but such investigations and inspections may be conducted with or without such consent.

(7) **PUBLIC LANDS.**—All uranium, thorium, and all other materials determined pursuant to paragraph (1) of this subsection to be peculiarly essential to the production of fissionable material, contained, in whatever concentration, in deposits in the public lands are hereby reserved for the use of the United States subject to valid claims, rights, or privileges existing on the date of the enactment of this Act: *Provided, however,* That no individual, corporation, partnership, or association, which had any part, directly or indirectly, in the development of the atomic bomb project, may benefit by any location, entry, or settlement upon the public domain made after such individual, corporation, partnership, or association took part in such project, if such individual, corporation, partnership, or association, by reason of having had such part in the development of the atomic bomb project, acquired confidential official information as to the existence of deposits of such uranium, thorium, or other materials in the specific lands upon which such location, entry, or settlement is made, and subsequent to the date of the enactment of this Act made such location, entry, or settlement or caused the same to be made for his, its, or their benefit. The Secretary of the Interior shall cause to be inserted in every patent, conveyance, lease, permit, or other authorization hereafter granted to use the public lands or their mineral resources, under any of which there might result the extraction of any materials so reserved, a reservation to the United States of all such materials, whether or not of commercial value, together with the right of the United States through its authorized agents or representatives at any time to enter upon the land and prospect for, mine, and remove the same, making just compensation for any damage or injury occasioned thereby. Any lands so patented, conveyed, leased, or otherwise disposed of may be used, and any rights under any such permit or authorization may be exercised, as if no reservation of such materials had been made under this subsection; except that, when such use results in the extraction of any such material from the land in quantities which may not be transferred or delivered without a license under this subsection, such material shall be the property of the Commission and the Commission may require delivery of such material to it by any possessor thereof after such material has been separated

as such from the ores in which it was contained. If the Commission requires the delivery of such material to it, it shall pay to the person mining or extracting the same, or to such other person as the Commission determines to be entitled thereto, such sums, including profits, as the Commission deems fair and reasonable for the discovery, mining, development, production, extraction, and other services performed with respect to such material prior to such delivery, but such payment shall not include any amount on account of the value of such material before removal from its place of deposit in nature. If the Commission does not require delivery of such material to it, the reservation made pursuant to this paragraph shall be of no further force or effect.

(c) **BYPRODUCT MATERIALS.**—

(1) **DEFINITION.**—As used in this Act, the term “byproduct material” means any radioactive material (except fissionable material) yielded in or made radioactive by exposure to the radiation incident to the processes of producing or utilizing fissionable material.

(2) **DISTRIBUTION.**—The Commission is authorized to distribute, with or without charge, byproduct materials to applicants seeking such materials for research or development activity, medical therapy, industrial uses, or such other useful applications as may be developed. In distributing such materials, the Commission shall give preference to applicants proposing to use such materials in the conduct of research and development activity or medical therapy. The Commission shall not distribute any byproduct materials to any applicant, and shall recall any distributed materials from any applicant, who is not equipped to observe or who fails to observe such safety standards to protect health as may be established by the Commission or who uses such materials in violation of law or regulation of the Commission or in a manner other than as disclosed in the application therefor.

(d) **GENERAL PROVISIONS.**—The Commission shall not—

(1) distribute any fissionable material to (A) any person for a use which is not under or within the jurisdiction of the United States, (B) any foreign government, or (C) any person within the United States if, in the opinion of the Commission, the distribution of such fissionable material to such person would be inimical to the common defense and security.

MILITARY APPLICATIONS OF ATOMIC ENERGY

SEC. 6 (a) AUTHORITY.—The Commission is authorized to—

(1) conduct experiments and do research and development work in the military application of atomic energy; and

(2) engage in the production of atomic bombs, atomic bomb parts, or other military weapons utilizing fissionable materials; except that such activities shall be carried on only to the extent that the express consent and direction of the President of the United States has been obtained, which consent and direction shall be obtained at least once each year.

Experiments, etc.

Production of military weapons.

Consent of President.

Delivery to armed forces.

Manufacture of equipment, etc.

The President from time to time may direct the Commission (1) to deliver such quantities of fissionable materials or weapons to the armed forces for such use as he deems necessary in the interest of national defense or (2) to authorize the armed forces to manufacture, produce, or acquire any equipment or device utilizing fissionable material or atomic energy as a military weapon.

(b) **PROHIBITION.**—It shall be unlawful for any person to manufacture, produce, transfer, or acquire any equipment or device utilizing fissionable material or atomic energy as a military weapon, except as may be authorized by the Commission. Nothing in this subsection shall be deemed to modify the provisions of section 4 of this Act, or to prohibit research activities in respect of military weapons, or to permit the export of any such equipment or device.

UTILIZATION OF ATOMIC ENERGY

SEC. 7. (a) LICENSE REQUIRED.—It shall be unlawful, except as provided in sections 5 (a) (4) (A) or (B) or 6 (a), for any person to manufacture, produce, or export any equipment or device utilizing fissionable material or atomic energy or to utilize fissionable material or atomic energy with or without such equipment or device, except under and in accordance with a license issued by the Commission authorizing such manufacture, production, export, or utilization. No license may permit any such activity if fissionable material is produced incident to such activity, except as provided in sections 3 and 4. Nothing in this section shall be deemed to require a license for the conduct of research or development activities relating to the manufacture of such equipment or devices or the utilization of fissionable material or atomic energy, or for the manufacture or use of equipment or devices for medical therapy.

Research relating to
manufacture of equip-
ment, etc.

(b) **REPORT TO CONGRESS.**—Whenever in its opinion any industrial, commercial, or other nonmilitary use of fissionable material or atomic energy has been sufficiently developed to be of practical value, the Commission shall prepare a report to the President stating all the facts with respect to such use, the Commission's estimate of the social, political, economic, and international effects of such use and the Commission's recommendations for necessary or desirable supplemental legislation. The President shall then transmit this report to the Congress together with his recommendations. No license for any manufacture, production, export, or use shall be issued by the Commission under this section until after (1) a report with respect to such manufacture, production, export, or use has been filed with the Congress; and (2) a period of ninety days in which the Congress was in session has elapsed after the report has been so filed. In computing such period of ninety days, there shall be excluded the days on which either House is not in session because of an adjournment of more than three days.

Restriction on is-
suanee of license.

(c) **ISSUANCE OF LICENSES.**—After such ninety-day period, unless hereafter prohibited by law, the Commission may license such manufacture, production, export, or use in accordance with such procedures and subject to such conditions as it may by regulation establish to effectuate the provisions of this Act. The Commission is authorized and directed to issue licenses on a nonexclusive basis and to supply to the extent available appropriate quantities of fissionable material to licensees (1) whose proposed activities will serve some useful purpose proportionate to the quantities of fissionable material to be consumed; (2) who are equipped to observe such safety standards to protect health and to minimize danger from explosion or other hazard to life or property as the Commission may establish; and (3) who agree to make available to the Commission such technical information and data concerning their activities pursuant to such licenses as the Commission may determine necessary to encourage similar activities by as many licensees as possible. Each such license shall be issued for a specified period, shall be revocable at any time by the Commission in accordance with such procedures as the Commission may establish, and may be renewed upon the expiration of such period. Where

activities under any license might serve to maintain or to foster the growth of monopoly, restraint of trade, unlawful competition, or other trade position inimical to the entry of new, freely competitive enterprises in the field, the Commission is authorized and directed to refuse to issue such license or to establish such conditions to prevent these results as the Commission, in consultation with the Attorney General, may determine. The Commission shall report promptly to the Attorney General any information it may have with respect to any utilization of fissionable material or atomic energy which appears to have these results. No license may be given to any person for activities which are not under or within the jurisdiction of the United States, to any foreign government, or to any person within the United States if, in the opinion of the Commission, the issuance of a license to such person would be inimical to the common defense and security.

Restriction.

(d) **BYPRODUCT POWER.**—If energy which may be utilized is produced in the production of fissionable material, such energy may be used by the Commission, transferred to other Government agencies, or sold to public or private utilities under contracts providing for reasonable resale prices.

INTERNATIONAL ARRANGEMENTS

SEC. 8. (a) DEFINITION.—As used in this Act, the term “international arrangement” shall mean any treaty approved by the Senate or international agreement hereafter approved by the Congress, during the time such treaty or agreement is in full force and effect.

If in any action for infringement against such licensee the court shall determine that the defendant is exercising such license, the measure of damages shall be the royalty fee determined pursuant to this section, together with such costs, interest, and reasonable attorney's fees as may be fixed by the court. If no royalty fee has been determined, the court shall stay the proceeding until the royalty fee is determined pursuant to this section. If any such licensee shall fail to pay such royalty fee, the patentee may bring an action in any court of competent jurisdiction for such royalty fee, together with such costs, interest, and reasonable attorney's fees as may be fixed by the court.

A copy of such petition shall be forthwith served upon the Commission and thereupon the Commission shall file with the court a certified transcript of the entire record in the proceeding, including the findings and conclusions upon which the determination was based. Upon the filing of such transcript the court shall have exclusive jurisdiction upon the record certified to it to affirm the determination in its entirety or set it aside and remand it to the Commission for further proceedings. The findings of the Commission as to the facts, if supported by substantial evidence, shall be conclusive. The court's judgment shall be final, subject, however, to review by the Supreme Court of the United States upon writ of certiorari on petition therefor under section 240 of the Judicial Code (U. S. SEC. 6. Section 602 (m) of the National Service Life Insurance Act of 1940 is hereby amended, effective as of October 8, 1940, to read as follows:

"(m) (1) The Administrator shall, by regulations, prescribe the time and method of payment of the premiums on such insurance, but payments of premiums in advance shall not be required for periods of more than one month each, and may at the election of the insured be deducted from his active-service pay or be otherwise made: *Provided*, That an amount equal to the first premium due under a national service life-insurance policy may be advanced from current appropriations for active service pay to any person in the active service in the Army, Navy, Marine Corps, or Coast Guard, which amount shall constitute a lien upon any service or other pay accruing to the person for whom such advance was made and shall be collected therefrom if not otherwise paid: *Provided further*, That no disbursing or certifying officer shall be responsible for any loss incurred by reason of the advance herein authorized: *And provided further*, That any amount so advanced in excess of available service or other pay shall constitute a lien on the policy within the provisions of section 5, Public Law Numbered 866, Seventy-sixth Congress, approved October 17, 1940.

"(2) In any case in which the insured provided for the payment of premiums on his insurance by authorizing in writing the deduction of premiums from his service pay, such insurance shall be deemed not to have lapsed so long as he remained in active service prior to the date of enactment of the Insurance Act of 1946, notwithstanding the fact that deduction of premiums was discontinued because—

- "(A) the insured was discharged to accept a commission; or
- "(B) the insured was absent without leave, if restored to active duty; or
- "(C) the insured was sentenced by court martial, if he was restored to active duty, required to engage in combat, or killed in combat.

In any case in which the insured under any insurance continued in force by the provisions of this paragraph died while such insurance was so continued in force, any premiums due on such insurance shall be deducted from the proceeds of the insurance. Any premiums deducted or collected on any such insurance shall be credited to the national service life insurance appropriation and any payments of benefits on any such insurance shall be made directly from such appropriation."

SEC. 7. Section 602 (n) of the National Service Life Insurance Act of 1940, as amended, is amended to read as follows:

"(n) Upon application by the insured and under such regulations as the Administrator may promulgate, payment of premiums on such insurance may be waived during the continuous total disability of the insured, which continues or has continued for six or more consecutive months, if such disability commenced (1) subsequent to the date of his application for insurance, (2) while the insurance was in force under premium-paying conditions, and (3) prior to the insured's sixtieth birthday: *Provided*, That upon application made within one year after the date of enactment of the Insurance Act of 1946 the Administrator shall grant waiver of any premium becoming due not more than five years prior to the date of enactment of such Act which may be waived under the foregoing provisions of this subsection: *Provided further*, That the Administrator, upon any application made subsequent to one year after the date of enactment of the Insurance Act of 1946, shall not grant waiver of any premium

becoming due more than one year prior to the receipt in the Veterans' Administration of application for the same, except as herein-after provided. Any premiums paid for months during which waiver is effective shall be refunded. The Administrator shall provide by regulations for examination or reexamination of an insured claiming benefits under this subsection, and may deny benefits for failure to cooperate. In the event that it is found that an insured is no longer totally disabled, the waiver of premiums shall cease as of the date of such finding and the policy of insurance may be continued by payment of premiums as provided in said policy: *Provided further*, That in any case in which the Administrator finds that the insured's failure to make timely application for waiver of premiums or his failure to submit satisfactory evidence of the existence or continuance of total disability was due to circumstances beyond his control, the Administrator may grant waiver or continuance of waiver of premiums: *And provided further*, That in the event of death of the insured without filing application for waiver, the beneficiary, within one year after the death of the insured or the enactment of this amendment, whichever be the later, or, if the beneficiary be insane or a minor, within one year after removal of such legal disability, may file application for waiver with evidence of the insured's right to waiver under this section. Premium rates shall be calculated without charge for the cost of the waiver of premiums herein provided and no deduction from benefits otherwise payable shall be made on account thereof."

SEC. 8. Section 602 (p) of the National Service Life Insurance Act of 1940, as amended, is amended to read as follows:

"(p) Such insurance may be made effective, as specified in the application, not later than the first day of the calendar month following the date of application therefor, but the United States shall not be liable thereunder for death occurring prior to such effective date. Notwithstanding the foregoing provisions of this subsection, in any case in which prior to the date of enactment of the Insurance Act of 1946 application was made for insurance to become effective subsequent to the date of application and the applicant died in line of duty prior to the date such insurance was to become effective, the United States shall be liable to the same extent as it would have been if such insurance had been in force on the date of death of the applicant. Any payments of benefits made as a result of the enactment of the preceding sentence shall be made directly from the national service life insurance appropriation."

SEC. 9. Section 602 of the National Service Life Insurance Act of 1940, as amended, is hereby amended by adding at the end thereof the following new subsections:

Payment to beneficiary.	Unless the insured elects some other mode of settlement, the insurance shall be payable to the designated beneficiary or beneficiaries in thirty-six equal monthly installments. The first beneficiary may elect to receive payment under any option which provides for payment over a longer period of time than the option elected by the insured, or if no option be designated by the insured, in excess of thirty-six months. If the option selected requires payment to any one beneficiary of monthly installments of less than \$10, the amount payable to such beneficiary shall be paid in such maximum number of monthly installments as are a multiple of twelve as will provide a monthly installment of not less than \$10. If the present value of the amount payable at the time any person initially becomes entitled to payment thereof is not sufficient to pay at least twelve monthly installments of not less than \$10 each, such amount shall be payable in one sum. Options (3) and (4) shall not be available if any firm, corporation, legal entity (including the estate of the insured), or trustee is beneficiary, or in any case in which an endowment contract matures by reason of the completion of the endowment period.
Installments less than \$10.	
Lump-sum settlement.	“(u) With respect to insurance maturing on or subsequent to the date of enactment of the Insurance Act of 1946, in any case in which the beneficiary is entitled to a lump-sum settlement but elects some other mode of settlement and dies before receiving all the benefits due and payable under such mode of settlement, the present value of the remaining unpaid amount shall be payable to the estate of the beneficiary; and in any case in which no beneficiary is designated by the insured, or the designated beneficiary does not survive the insured, or a designated beneficiary not entitled to choose a lump-sum settlement survives the insured, and dies before receiving all the benefits due and payable, the commuted value of the insurance remaining unpaid shall be paid in one sum to the estate of the insured: <i>Provided</i> , That in no event shall there be any payment to the estate of the insured or of the beneficiary of any sums unless it is shown that any sums paid will not escheat.
Total-disability provisions.	“(v) (1) The Administrator is hereby authorized and directed, upon application by the insured and proof of good health satisfactory to the Administrator and payment of such extra premium as the Administrator shall prescribe, to include in any national service life-insurance policy on the life of the insured provisions whereby an insured who is shown to have become totally disabled for a period of six consecutive months or more commencing after the date of such application and before attaining the age of sixty and while the payment of any premium is not in default, shall be paid monthly disability benefits from the first day of the seventh consecutive month of and during the continuance of such total disability of \$5 for each \$1,000 of such insurance in effect when such benefits become payable: <i>Provided</i> , That in any case in which the applicant while not totally disabled and prior to January 1, 1950, furnishes proof satisfactory to the Administrator that his inability to furnish proof of good health is the result of an actually service-incurred injury or disability, the requirement of proof of good health shall be waived, but in such case the extra premium for disability coverage paid by any such insured shall be credited directly to the

“(2) Whenever benefits under the total-disability provision authorized by section 602 (v) (1) hereof become, or have become, payable because of total disability of the insured as a result of disease or injury traceable to the extra hazard of the military or naval service, as such hazard may be determined by the Administrator of Veterans' Affairs, the liability shall be borne by the United States, and the Administrator is hereby authorized and directed to transfer from the national service life-insurance appropriation to the national service life-insurance fund from time to time any amounts which become, or have become, payable to the insured on account of such total disability, and to transfer from the national service life-insurance fund to the national service life-insurance appropriation the amount of the reserve held on account of the total-disability benefit. When a person receiving such payments on account of total disability recovers from such disability, and is then entitled to continue protection under the total-disability provision, the Administrator is hereby authorized and directed to transfer to the national service life-insurance fund a sum sufficient to set up the then required reserve on such total-disability benefit.

Transfer of funds.

“(w) Subject to the provisions of section 612 of the National Service Life Insurance Act of 1940, as amended, all contracts or policies of insurance heretofore or hereafter issued, reinstated, or converted shall be incontestable from the date of issue, reinstatement, or conversion except for fraud, nonpayment of premium, or on the ground that the applicant was not a member of the military or naval forces of the United States.

To provide for the replanning and rebuilding of slum, blighted, and other areas of the District of Columbia and the assembly, by purchase or condemnation, of real property in such areas and the sale or lease thereof for the redevelopment of such area in accordance with said plans; and to provide for the organization of, procedure for, and the financing of such planning, acquisition, and sale or lease; and for other purposes.

District of Columbia Redevelopment Act of 1945.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "District of Columbia Redevelopment Act of 1945".

GENERAL PURPOSES

SEC. 2. It is hereby declared to be a matter of legislative determination that owing to technological and sociological changes, obsolete lay-out, and other factors, conditions existing in the District of Columbia with respect to substandard housing and blighted areas, including the use of buildings in alleys as dwellings for human habitation, are injurious to the public health, safety, morals, and welfare; and it is hereby declared to be the policy of the United States to protect and promote the welfare of the inhabitants of the seat of the Government by eliminating all such injurious conditions by employing all means necessary and appropriate for the purpose; and control by regulatory processes having proved inadequate and insufficient to remedy the evils, it is in the judgment of Congress necessary to acquire property in the District of Columbia by gift, purchase, or the use of eminent domain to effectuate the declared policy by the discontinuance of the use for human habitation in the District of Columbia of substandard dwellings and of buildings in alleys and blighted areas, and thereby to eliminate the substandard housing conditions and the communities in the inhabited alleys and blighted areas in such District; and it is necessary to modernize the planning and development of such portions of such District. The Congress finds that the foregoing cannot be accomplished by the ordinary operations of private enterprise alone without public participation in the planning and in the financing of land assembly for such development; and that for the economic soundness of this redevelopment and the accomplishment of the necessary social and economic benefits, and by reason of the close relationships between the development and uses of any part of an urban area with the development and uses of all other parts the sound replanning and redevelopment of an obsolescent or obsolescing portion of such District cannot be accomplished

The members shall receive no salary as such, but those members who hold no other salaried public position shall be paid a per diem of \$20 for each day of service at meetings or on the work of the Agency.

(b) The said District of Columbia Redevelopment Agency is hereby made a body corporate of perpetual duration, the powers of which shall be vested in and exercised by the board of directors thereof, consisting of the five members thereof appointed as above set forth. The title to properties acquired under this present Act shall be taken by and in the name of the Agency and proceedings for condemnation or other acquisition of property shall be brought by and in the name of the Agency.

GENERAL AND PROJECT AREA REDEVELOPMENT PLANS

SEC. 6. (a) The Planning Commission is hereby directed to make and, from time to time, develop a comprehensive or general plan of the District of Columbia, including the appropriate maps, charts, tables, and descriptive, interpretative, and analytical matter, which plan is intended to serve as a general framework or guide of development within which the various project areas may be more precisely planned and calculated, and which comprehensive or general plan shall include at least a land-use plan which designates the proposed general distribution and general locations and extents of the uses of the land for housing, business, industry, recreation, education, public buildings, public reservations, and other general categories of public and private uses of the land.

Acquisition, etc., of property.

(b) For the exercise of the powers granted to the Agency by this Act for the acquisition and disposition of real property for the redevelopment of a project area, the following steps and plans shall be requisite, namely:

Boundaries.

(1) Adoption by the Planning Commission of the boundaries of the project area proposed by it, submission of such boundaries to the District Commissioners, and approval thereof by said Commissioners.

Redevelopment plan.

(2) Adoption by the Planning Commission and submission to, and, after a public hearing thereon, approval by the District Commissioners, of the redevelopment plan of the project area which shall contain a site and use plan for the redevelopment of the area, including the approximate locations and extents of the land uses proposed for and within the area, such as public buildings, streets, and other public works and utilities, housing, recreation, business, industry, schools, public and private open spaces, and other categories of public and private uses. Such plan shall also contain specifications of standards of population density and building intensity. Any such plan may also specify, by means of specification of maximum rentals or other basis, the amount or character or class of any low-rent housing for which the area or part thereof is proposed to be redeveloped.

Location and extent of public works, etc.

(c) In relation to the location and extent of public works and utilities, public buildings, and other public uses in the general plan or in a project area plan, the Planning Commission is directed to confer with the Federal and District public officials, boards, authorities, and agencies under whose administrative jurisdictions such uses respectively fall. In the project area planning, the Planning Commission is directed to consult from time to time with the Agency, and the Agency shall be free at all times to submit to the Planning Commission suggestions regarding both the location and extent of project areas and the use and site plans of project areas.

(d) After a project area redevelopment plan shall have been adopted by the Planning Commission and approved by the District Commissioners, the Planning Commission shall forthwith certify said plan to the Agency, whereupon said Agency shall proceed to the exercise of the powers granted to it in this Act for the acquisition and assembly of the real property of the area. Following such certification, no new construction shall be authorized by the District Commissioners in such area, including substantial remodeling or conversion or rebuilding, enlargement or extension or major structural improvements on existing buildings, but not including ordinary maintenance or remodeling or changes necessary to continue the occupancy.

Certification of plan.

TRANSFER, LEASE, OR SALE OF REAL PROPERTY IN PROJECT AREA FOR
PUBLIC AND PRIVATE USES

SEC. 7. (a) After the real property in the project area shall have been assembled by the Agency, the Agency shall have the power to transfer to and shall at a practicable time or times transfer by deeds to the United States or to the District of Columbia, or to the appropriate Federal or District public body, department, or agency, those pieces of real property which, in accordance with the approved project area redevelopment plan, are to be devoted to public uses (other than public housing) falling within the construction or administrative jurisdiction of Federal or District agencies, such as streets and other utilities and works, Federal and District public buildings, public recreational spaces, and schools. The Federal agencies and the public agencies of the District of Columbia are hereby empowered, respectively, to acquire real property from the Agency for the uses respectively specified in the project area plan and to pay for same out of their funds duly appropriated for such acquisition. Excepting for such property as may be transferred by dedication, gift, or exchange, the transferee agency shall pay to the Agency such sum as may be agreed upon or, in the absence of agreement, as may be fixed by the Chief Justice of the District Court of the United States for the District of Columbia.

Public uses.
Transfer of prop-
erty.

Acquisition of prop-
erty from Agency.

(b) The Agency shall have the power to lease or sell the remainder of the project area as an entirety to a redevelopment company or to an individual or a partnership. Said remainder may include streets or parts thereof which in accordance with the plan are to be closed or vacated or other than publicly owned properties; and the Federal and District departments and agencies are empowered to transfer said spaces or properties to the Agency for such sums or other consideration as may be agreed upon.

Lease or sale of re-
mainder.

(c) Any such lease or sale may be made without public bidding but only after a public hearing, after ten days' public notice, by the Agency upon the proposed lease or sale and the provisions thereof.

(d) The term of any such lease shall be fixed by the Agency and the instrument of lease may provide for renewals upon reappraisals and with rentals and other provisions adjusted to such reappraisals. Every such lease or sale shall provide that the lessee or purchaser shall carry out or cause to be carried out the approved project area redevelopment plan or approved modifications thereof and that no use shall be made of any land or real property included in the lease or sale nor any building or structure erected thereon which does not conform to such approved plan or approved modifications thereof. In the instrument, or instruments, of lease or sale, the Agency may include such other terms, conditions, and provisions as in its judgment will provide reasonable assurance of the priority of the obligations of the lease or sale and of conformance to the plan over any other obligations of the lessee or purchaser and also assurance of the financial and legal ability

of the lessee or purchaser to carry out and conform to the plan and the terms and conditions of the lease or sale; also, such terms, conditions, and specifications concerning buildings, improvements, subleases, or tenancies, maintenance and management, and any other related matters as the Agency may reasonably impose or approve, including provisions whereby the obligations to carry out and conform to the project area plan shall run with the land. In the event that maximum rentals to be charged to tenants of housing be specified, provision may be made for periodic reconsideration of such rental bases, with a view to proposing modification of the project area plan with respect to such rentals.

Maximum rentals.

Conveyance by purchaser.

(e) Until the Agency certifies that all building constructions and other physical improvements specified to be done and made by the purchaser of the area have been completed, the purchaser shall have no power to convey the area, or any part thereof, without the consent of the Agency; and no such consent shall be given unless the grantee or mortgagee of the purchaser obligates itself or himself by written instrument to the Agency to carry out that portion of the redevelopment plan which falls within the boundaries of the conveyed property, and also that the grantee, his or its heirs, representatives, successors, and assigns, shall have no right or power to convey, lease, or let the conveyed property or any part thereof or erect or use any building or structure erected thereon free from the obligation and requirement to conform to the approved project area redevelopment plan or approved modifications thereof.

Lease, etc., of parts of area.

(f) In lieu of the lease or sale of a project area as an entirety, the Agency shall have the power to lease or sell parts of such area separately to individuals, partnerships, or redevelopment companies. Any such sale or lease of a part or parts of a project area shall be fully subject to the provisions of subsections (c), (d), and (e) of this section.

Lease, etc., to public redevelopment company.

(g) No lease or sale of any project area or portion thereof shall be made by the Agency to any public redevelopment company unless the terms of such lease or sale shall provide greater compensation to the Agency than any offer or combination of offers based on substantially the same area and substantially the same redevelopment plan which shall be received from any responsible private sources (eligible as purchasers or lessees under this Act) within a reasonable announced period of time (not less than thirty days) after the public hearing on such proposed lease or sale. It is the intent of this provision that private enterprise as represented through a responsible private redevelopment company, individual, or partnership shall be given a preference over any public redevelopment company in such lease or sale provided such preference can be given, in the judgment of the Agency, consistently with the protection of the public interest and consistently with a purpose to resort to a public redevelopment company only in the event that private enterprise shall not reasonably be available for the development of the project area or the part thereof under consideration.

Preference given to private enterprise.

Demolition and construction.

(h) The Agency may itself demolish any existing structure or clear the area or any part thereof, or may specify the demolition and clearance to be performed by a lessee or purchaser within a reasonable time after such lease or purchase. The Agency may specify a reasonable time schedule and reasonable conditions for the construction of buildings and other improvements by a lessee or purchaser: *Provided*, That any such time schedule or condition shall be specified prior to the offering of the area or part thereof for lease or sale, and shall be equally binding upon any purchaser or lessee, public or private. The cost of demolition or clearance made by the Agency pursuant to this

Prior specification of time schedule.

subsection shall be treated as an item of cost of the acquisition of the area.

(i) In order to facilitate the lease or sale of a project area or, in the event that the lease or sale is of parts of an area, then to facilitate the leases or sales of such parts, the Agency shall have the power to include in the cost payable by it the cost of the construction of local streets and sidewalks within the area or of grading and other local public surface or subsurface facilities necessary for shaping the area as the site of the redevelopment of the area. The Agency may arrange with the appropriate Federal or District agencies for the reimbursement of such outlays from funds or assessments raised or levied for such purposes.

Cost of street construction, etc.

Reimbursement.

HOUSING FOR DISPLACED FAMILIES

SEC. 8. (a) Prior to approval by the District Commissioners, pursuant to subparagraph (2) of subsection 6 (b), of any redevelopment plan, the District Commissioners shall satisfy themselves (and shall so state at the public hearing required by such subparagraph) that decent, safe, and sanitary housing, substantially equal in quantity to the number of substandard dwelling units to be removed or demolished within the project area, under the proposed redevelopment plan, are available or will be provided (by construction pursuant to the redevelopment plan, or otherwise) in localities, and at rents or prices, within the reach of the low-income families displaced or to be displaced (temporarily or permanently), pursuant to the redevelopment plan, from the project area.

Availability of safe housing.

(b) Families displaced by slum clearance or redevelopment under this Act shall be given preference as tenants to fill vacancies occurring in housing owned or operated within the District of Columbia by Federal or District of Columbia governmental agencies until appropriate housing is available to such families.

Preference as tenants.

ACQUISITION OF PROPERTY FROM PROSPECTIVE LESSEE OR PURCHASER

SEC. 9. As an aid in the acquisition of the real property of a project area, the Agency may accept a fund or, at an agreed value, any parcel or parcels of property within such area, from any redevelopment company or partnership or individual, subject to a provision that in the event the supplier of any such fund or the conveyor of such property shall become the purchaser of the project area or any part or parts thereof such fund or the agreed value of such property shall be credited on the purchase price of such area or part thereof and if there be an excess above the cost of acquisition of the area such excess shall be returned, and that in the event that such supplier or conveyor does not become the purchaser of such area or any part thereof, the amount of the fund or the agreed value of such property (as the case may be) shall be paid to such supplier or conveyor.

USE-VALUE APPRAISALS

SEC. 10. After the Agency shall have assembled and acquired the real property of a project area, it shall, as an aid to it in determining the rentals and other terms upon which it will lease or the price at which it will sell the area or parts thereof, place a use-value upon each piece or tract of land within the area which, in accordance with the plan, is to be used for private uses or for low-rent housing, such use-value to be based on the planned use; and, for the purpose of this use valuation, it shall cause a use-value appraisal to be made by two or more land-value experts employed by it for the purpose; but nothing contained in this section shall be construed as requiring the Agency to base its rentals or selling prices upon such appraisal.

The aggregate use value placed, for purposes of lease or sale, upon all land, within a particular project area, leased or sold by the Agency pursuant to this Act shall be not less than one-third of the aggregate cost to the Agency of acquiring all such land (excluding the cost of old buildings destroyed and the demolition and clearance thereof).

PROTECTION OF REDEVELOPMENT PLAN

Articles of incorporation, etc.

SEC. 11. (a) Previous to the execution and delivery by the Agency of a lease or conveyance to a redevelopment company or previous to the consent by the Agency to an assignment or conveyance by a lessee or purchaser to a redevelopment company, the articles or certificate of incorporation or association or charter or other basic instrument of such company shall contain provisions so defining, limiting, and regulating the exercise of the powers of the company that neither the company nor its stockholders, its officers, its directors, its members, its beneficiaries, its bondholders, or other creditors or other persons shall have any power to amend or to effect the amendment of the terms and conditions of the lease or the terms and conditions of the sale without the consent of the Agency or, in relation to the project area redevelopment plan, without the approval of any proposed modification in accordance with the provisions of section 12 of this Act; and no action of stockholders, officers, directors, bondholders, creditors, partners or other persons, nor any reorganization, dissolution, receivership, consolidation, foreclosure, or any other change in the status or obligation of any redevelopment company, partnership, or individual in any litigation or proceeding in any Federal or other court shall effect any release or any impairment or modification of the lease or terms of sale or of the project area redevelopment plan unless such consent or approval be obtained.

Organization of redevelopment corporations.

D. C. Code §§ 29-201 to 29-240.

Books of account.

(c) A redevelopment company, individual, or partnership to which any project area or part thereof is leased or sold under this Act shall keep books of account of its operations of or transactions relating to such area or part thereof entirely separate and distinct from its or his accounts of and for any other project area or part thereof or any other real property or enterprise; and no lien or other interest shall be placed upon any real property in said area to secure any indebtedness or obligation of the redevelopment company, individual, or partnership incurred for or in relation to any property or enterprise outside of said area.

MODIFICATIONS OF REDEVELOPMENT PLANS

SEC. 12. An approved project area redevelopment plan may be modified at any time or times: *Provided*, That any such modification as it may affect an area or part thereof which has been sold or leased shall not become effective without the consent in writing of the purchaser or lessee thereof: *Provided further*, That such modification may be effected only through adoption by the Planning Commission and subsequent submission to and approval by the District Commissioners, as hereinafter provided. Before approval, the District Commissioners shall hold a public hearing on the proposed modification,

notice of the time and place of which shall be given by mail sent at least ten days prior to the hearing to the then owners of the real properties in the project area and of the real properties immediately adjoining or across the street from the project area. The District Commissioners may refer back to the Planning Commission any project area redevelopment plan, project area boundaries, or modification submitted to it, together with their recommendation for changes in such plan, boundaries, or modification, and, if such recommended changes be adopted by the Planning Commission and be in turn approved by the District Commissioners, the plan, boundaries, or modification as thus changed shall be and become the approved plan, boundaries, or modification.

LIMITATION UPON TAX EXEMPTION

SEC. 13. Nothing contained in this Act shall be construed to authorize or require the exemption of any real property from taxation. No real property acquired by the Agency under this Act shall be exempt from taxation by reason of such acquisition or by reason of the holding thereof by the Agency; and, in the case of any piece of real property, which, under the project area redevelopment plan, is designated to be used for Federal or District or other tax-exempt uses, the exemption of such real property from taxation granted by or in the Act entitled "An Act to define the real property exempt from taxation in the District of Columbia (Public Law 846, Seventy-seventh Congress)", or other statute, shall not commence until title thereto shall have been transferred from the Agency to the United States or the District of Columbia or to a Federal or District public agency as provided in section 7 of this Act or sold or leased to a public redevelopment company or other public corporation or tax-exempt agency and may thereby become exempt from taxation by reason of the provisions of statutes other than this present Act; the intention being that ownership or operation by the Agency in the exercise of its power under this present Act shall not, in and of itself, produce tax exemption.

Grants to States, etc.

Special trust fund.

Transfer of funds.

Deficits.

SEC. 16. (a) There is hereby authorized to be appropriated, out of any moneys in the Treasury of the United States not otherwise appropriated, whatever amounts are necessary to the Planning Commission, in addition to other funds which may be appropriated to it or private funds made available to it (the acceptance of which is hereby authorized), for the making or modification of a general or comprehensive plan and the making or modification of project area redevelopment plans and for surveys as authorized in this Act, and other administrative expenses in connection therewith. The Commission is also authorized to receive any grants that the Congress may appropriate for said purposes to the various States and municipalities and the District of Columbia.

(b) There is further authorized to be appropriated out of any moneys in the Treasury of the United States not otherwise appropriated, the sum of \$20,000,000, which sum shall be placed to the credit of a special trust fund to be established for the purposes hereinafter set out. There shall be deposited in the Treasury of the United States and credited to said special trust fund all revenues, rentals, proceeds, and other funds received by the Agency. The said special trust fund is hereby made available to the Agency for the purpose of acquiring real property and performing any act required or authorized by this Act. The Agency shall from time to time submit to the District Commissioners estimates of amounts for the reasonable and necessary expenses of the Agency, including personal services, and such amounts as may be approved by the District Commissioners shall be available from the said special trust fund for such expenses.

(c) As of the last day of the tenth fiscal year beginning after approval of this Act, or as of such later date as may be fixed by the Congress, there shall be transferred and credited to miscellaneous receipts of the United States the balance in the said special trust fund after deducting (a) such amount as may be necessary for the completion of any approved project the acquisition of which has been begun and (b) such amount for operating expenses of the Agency for one year as may be approved by the District Commissioners. If the balance so transferred and credited be insufficient to reimburse the United States for appropriations made pursuant to paragraph (b) of this section, then an amount equal to 50 per centum of the deficit shall be payable to the United States from revenues of the District of Columbia in installments of equal amounts for each of ten years. The District Commissioners shall include in their annual estimates of appropriations items for the payment of such installments. The aforesaid deficit shall be determined by deducting from the total of said appropriations an amount equal to (a) the fund transferred and credited to miscellaneous receipts of the United States, (b) the cost

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the Act of January 16, 1936 (49 Stat. 1092; 34 U. S. C. 1073-1073e), entitled “An Act to provide for the retirement and retirement annuities of civilian members of the teaching staff at the United States Naval Academy and the Postgraduate School, United States Naval Academy”, as amended by the Act of November 28, 1943 (57 Stat. 594), is hereby further amended by inserting therein two new sections numbered 4B and 4C, reading as follows:

“SEC. 4B. Any civilian member of the teaching staffs to whom this Act applies who shall have served for a total period of not less than five years, and who, before becoming eligible for retirement under the conditions defined in the preceding sections hereof, becomes totally disabled for useful and efficient service in his position, by reason of disease or injury not due to vicious habits, intemperance, or willful misconduct on the part of the civilian member of the teaching staffs, shall upon his own application or upon the request or order of the Secretary of the Navy be retired on an annuity computed in accordance with provisions of section 4A of this Act. The annuity which the Government pays to a civilian teacher who is forced to retire under this section shall be the difference between his total annuity as computed under section 4A of this Act and the immediate life annuity to which he is entitled at the time of such retirement under the annuity policy provided by the Act. Every annuitant retired under the provisions of this section, unless the disability for which he was retired be permanent in character, shall at the expiration of one year from the date of such retirement and annually thereafter, until reaching retirement age as defined in section 3 hereof, be examined by a board of medical officers appointed by the Superintendent of the Naval Academy. If the annuitant is found to be sufficiently recovered for useful and efficient service in his position and if he is offered reemployment by the Superintendent of the Naval Academy, the annuity being paid him by the Government shall cease immediately. If an annuitant who has been retired under the provisions of this section is subsequently reemployed by the Government, the annuity being paid to him by the Government shall be terminated. If the annuitant is reemployed as a civilian teacher at the Naval Academy, the annuity which the Government will pay him at the time of subsequent retirement shall be the difference between the total annuity, computed under section 4A of this Act, and the immediate life annuity which the total premiums, paid on his annuity contracts provided by this Act, would purchase. No person shall be entitled to receive an annuity under the provisions of this Act, and compensation under the provisions of the Act of September 7, 1916, entitled ‘An Act to provide compensation for employees of the United States suffering injuries while in the performance of their duties, and for other purposes’, covering the same period of time; but this provision shall not bar the right of any claimant to the greater benefit conferred by either Act for any part of the same period.

"SEC. 4C. Any civilian member of the teaching staffs retiring under the provisions of this Act, as amended, may at the time of his retirement elect to receive in lieu of the life annuity to be paid by the Secretary of the Navy under the provisions of this Act a reduced annuity payable to him during his life, and an annuity after his death payable to his beneficiary, duly designated in writing and filed with the Secretary of the Navy at the time of retirement, during the life of such beneficiary (a) equal to or (b) 50 per centum of such reduced annuity and upon the death of such surviving beneficiary all payments shall cease and no further annuities shall be due or payable. The amounts of these two annuities shall be such that their combined actuarial value on the date of retirement as determined under the provisions of the Civil Service Retirement Act shall be the same as the actuarial value of the single life annuity provided by this Act."

TITLE V—GENERAL BRIDGE ACT

SHORT TITLE

SEC. 501. This title may be cited as the "General Bridge Act of 1946".

CONSENT OF CONGRESS

SEC. 502. (a) The consent of Congress is hereby granted for the construction, maintenance, and operation of bridges and approaches thereto over the navigable waters of the United States, in accordance with the provisions of this title.

Construction, etc.

(b) The location and plans for such bridges shall be approved by the Chief of Engineers and the Secretary of War before construction is commenced, and, in approving the location and plans of any bridge, they may impose any specific conditions relating to the maintenance and operation of the structure which they may deem necessary in the interest of public navigation, and the conditions so imposed shall have the force of law.

Location and plans.

(c) Notwithstanding the provisions of subsections (a) and (b), it shall be unlawful to construct or commence the construction of any privately owned highway toll bridge until the location and plans thereof shall also have been submitted to and approved by the highway department or departments of the State or States in which the bridge and its approaches are situated; and where such bridge shall be between two or more States and the highway departments thereof shall be unable to agree upon the location and plans therefor, or if they, or either of them, shall fail or refuse to act upon the location and plans submitted, such location and plans then shall be submitted to the Public Roads Administration and, if approved by the Public Roads Administration, approval by the highway departments shall not be required.

Privately owned toll bridge.

TOLLS

SEC. 503. If tolls shall be charged for the transit over any interstate bridge of engines, cars, street cars, wagons, carriages, vehicles, animals, foot passengers, or other passengers, such tolls shall be reasonable and just, and the Secretary of War may, at any time, and from time to time, prescribe the reasonable rates of toll for such transit over

such bridge, and the rates so prescribed shall be the legal rates and shall be the rates demanded and received for such transit.

ACQUISITION BY PUBLIC AGENCIES

SEC. 504. After the completion of any interstate toll bridge constructed by an individual, firm, or corporation, as determined by the Secretary of War, either of the States in which the bridge is located, or any public agency or political subdivision of either of such States, within or adjoining which any part of such bridge is located, or any two or more of them jointly, may at any time acquire and take over all right, title, and interest in such bridge and its approaches, and any interest in real property for public purposes by condemnation or expropriation. If at any time after the expiration of five years after the completion of such bridge the same is acquired by condemnation or expropriation, the amount of damages or compensation to be allowed shall not include good will, going value, or prospective revenues or profits, but shall be limited to the sum of (1) the actual cost of constructing such bridge and its approaches, less a reasonable deduction for actual depreciation in value; (2) the actual costs of acquiring such interests in real property; (3) actual financing and promotion costs, not to exceed 10 per centum of the sum of the cost of constructing the bridge and its approaches and acquiring such interests in real property; and (4) actual expenditures for necessary improvements.

STATEMENTS OF COST

SEC. 505. Within ninety days after the completion of a privately owned interstate toll bridge, the owner shall file with the Secretary of War and with the highway departments of the States in which the bridge is located, a sworn itemized statement showing the actual original cost of constructing the bridge and its approaches, the actual cost of acquiring any interest in real property necessary therefor, and the actual financing and promotion costs. The Secretary of War may, and upon request of a highway department shall, at any time within three years after the completion of such bridge, investigate such costs and determine the accuracy and the reasonableness of the costs alleged in the statement of costs so filed, and shall make a finding of the actual and reasonable costs of constructing, financing, and promoting such bridge. For the purpose of such investigation the said individual, firm, or corporation, its successors and assigns, shall make available all of its records in connection with the construction, financing, and promotion thereof. The findings of the Secretary of War as to the reasonable costs of the construction, financing, and promotion of the bridge shall be conclusive for the purposes mentioned in section 504 of this title subject only to review in a court of equity for fraud or gross mistake.

SINKING FUND

SEC. 506. If tolls are charged for the use of an interstate bridge constructed or taken over or acquired by a State or States or by any municipality or other political subdivision or public agency thereof, under the provisions of this title, the rates of toll shall be so adjusted as to provide a fund sufficient to pay for the reasonable cost of maintaining, repairing, and operating the bridge and its approaches under economical management, and to provide a sinking fund sufficient to amortize the amount paid therefor, including reasonable interest and financing cost, as soon as possible under reasonable charges, but within a period of not to exceed twenty years from the date of constructing or acquiring the same. After a sinking fund sufficient for

such amortization shall have been so provided, such bridge shall thereafter be maintained and operated free of tolls. An accurate record of the amount paid for acquiring the bridge and its approaches, the actual expenditures for maintaining, repairing, and operating the same, and of the daily tolls collected, shall be kept and shall be available for the information of all persons interested.

APPLICABILITY OF TITLE

SEC. 507. The provisions of this title shall apply only to bridges over navigable waters of the United States, the construction of which is hereafter approved under the provisions of this title; and the provisions of the first proviso of section 9 of the Act of March 3, 1899 (30 Stat. 1151; U. S. C., title 33, sec. 401), and the provisions of the Act entitled "An Act to regulate the construction of bridges over navigable waters", approved March 23, 1906, shall not apply to such bridges.

EMINENT DOMAIN

SEC. 509. There are hereby conferred upon any individual, his heirs, legal representatives, or assigns, any firm or corporation, its successors or assigns, or any State, political subdivision, or municipality authorized in accordance with the provisions of this title to build a bridge between two or more States, all such rights and powers to enter upon lands and acquire, condemn, occupy, possess, and use real estate and other property in the respective States needed for the location, construction, operation, and maintenance of such bridge and its approaches, as are possessed by railroad corporations for railroad purposes or by bridge corporations for bridge purposes in the State in which such real estate or other property is situated, upon making just compensation therefor to be ascertained and paid according to the laws of such State, and the proceedings therefor shall be the same as in the condemnation or expropriation of property for public purposes in such State.

PENALTIES

SEC. 510. Any person who fails or refuses to comply with any lawful order of the Secretary of War or the Chief of Engineers issued under the provisions of this title, or who fails to comply with any specific condition imposed by the Chief of Engineers and the Secretary of War relating to the maintenance and operation of bridges, or who refuses to produce books, papers, or documents in obedience to a subpoena or other lawful requirement under this title, or who otherwise violates any provisions of this title, shall, upon conviction thereof, be punished by a fine of not to exceed \$5,000 or by imprisonment for not more than one year, or by both such fine and imprisonment.

Options.

Any teacher retiring under the provisions of this Act may, at the time of his retirement, elect one of the following options: (1) He may elect to receive in lieu of the life annuity described herein a reduced annuity of equivalent value providing that, in the event the annuitant shall die without having received in annuities purchased by his contributions accumulated with interest to the date of his retirement an aggregate sum equal to the total amount to his credit at time of retirement, the difference shall be paid in accordance with the provisions of section 10 of this Act; or (2) he may elect to receive in lieu of the life annuity as described herein a reduced annuity of equivalent value providing for a life-insurance benefit payable in a lump sum at the time of the annuitant's death. The face amount of such life insurance may be in any amount which the retiring teacher shall designate at the time of retirement but shall not exceed his contributions accumulated with interest to the date of retirement. Payment of such insurance shall be made in accordance with the provisions of section 10 of this Act. Any annuitant who elects to receive the reduced annuity with fixed life-insurance benefits may reconvert the value of the life insurance to an additional annuity of equivalent value on any anniversary of the retirement date of said annuitant prior to reaching age seventy.

Minimum credit.

SEC. 6. That in calculating, as provided in section 5, the second part of the annuity of a teacher retired under the provisions of section 4 of this Act, a minimum credit of twenty years shall be used in determining the sum allowable to a teacher with less than twenty years of service: *Provided*, That such minimum credit shall not exceed the total number of years of service which the teacher might have served

if continuously employed as a teacher in the public schools of the District of Columbia to age sixty.

SEC. 7. The amount of each year's appropriation shall be calculated, on an actuarial basis, as a level percentage of the pay roll of all participants which shall be adequate to cover the liability normally accrued plus a further level amount computed to be sufficient to liquidate the unfunded accrued liability within a period of approximately twenty years after the effective date of this Act.

SEC. 8. The whole term of service which forms the basis for determining the amount of the annuity provided in section 5 of this Act shall be computed from the date of original employment as a teacher, other than temporary, in the public schools of the District of Columbia, plus any service credit that may be allowed under the provisions of this section. In computing the length of service of retiring teachers credit may be given, year for year, for (a) public-school service or its equivalent outside the District of Columbia but not to exceed ten years; (b) continuous temporary service in the public schools of the District of Columbia immediately prior to probationary appointment; (c) service in the government of the District of Columbia or the Government of the United States allowable under the Civil Service Act of 1920, as amended; (d) periods of honorable service in the Army, Navy, Marine Corps, or Coast Guard of the United States in time of war; (e) all educational leaves of absence with part pay authorized by the Board of Education in accordance with the Act of June 12, 1940 (54 Stat. 349); and the first ten-year period to begin on the date of the first probationary appointment as a teacher in the public schools of the District of Columbia: *Provided, however*, That that portion of the annuity which results from credit for service allowable under (a) and (c) of this section shall be reduced by the amount of any annuity which the retired teacher is entitled to receive under any Federal, State, or municipal retirement or pension system in respect to such service, except that such portion of the annuity after reduction shall not be less than the annuity purchasable with the deposit which the teacher is required to make under the provisions of this section in order to obtain credit for such service: *Provided further*, That no credit for service prescribed in this section, with the exception of periods of honorable service in the Army, Navy, Marine Corps, or Coast Guard of the United States in time of war and all educational leaves of absence with part pay authorized by the Board of Education in accordance with the Act of June 12, 1940 (54 Stat. 349), shall be given to any teacher entering the said public schools after June 30, 1926, until he shall have deposited to the credit of the teachers' retirement and annuity fund of the District of Columbia a sum equal to the accumulated contributions and interest which he would have had credited to his individual account if such service had been rendered on active duty in the public schools of the District of Columbia, said contributions to be based on the average annual salary of the class to which the teacher is appointed: *Provided further*, That all contributions to the retirement fund made by any teacher on educational leave with part pay shall be determined in accordance with the provisions of section 1 of this Act, but otherwise no provision of this Act shall be interpreted to deprive any teacher employed by the Board of Education of any rights or benefits allowable under the Act of June 12, 1940 (54 Stat. 349): *Provided further*, That if the teacher so elects, he may deposit the required sum in the fund in any number of monthly installments not exceeding fifty with interest at 3 per centum per annum compounded annually, upon making claim with the Auditor, District of Columbia, within one year of the effective date of this Act, or within one year after the original probational appointment or reinstatement in the school service, or within two years

Death before retirement.	In the event any teacher shall die before retirement the total amount of his deductions with interest thereon shall be paid, upon the establishment of a valid claim therefor, provided the claim be filed with the Auditor of the District of Columbia within three years after the death of such teacher, to the beneficiary or beneficiaries, if a beneficiary or beneficiaries be designated in writing by the teacher and recorded on his individual account, or, if there be no such beneficiary or beneficiaries designated, then to the duly appointed executor or administrator of the estate of the teacher, or, if the amount payable be less than \$1,000 and no executor or administrator is appointed, to such person or persons as the Auditor, in his judgment, may determine is or are legally entitled thereto.
	On the death of a retired teacher who elected to receive a reduced annuity with death benefits, the amount payable, if any, shall be determined according to the terms of the option so elected, and such amount shall be paid upon the establishment of a valid claim therefor, provided the claim be filed with the Auditor of the District of Columbia within three years after the death of such teacher, to the beneficiary or beneficiaries, if a beneficiary or beneficiaries be designated in writing by the teacher and recorded on his individual account, or, if there be no such beneficiary or beneficiaries designated, then to the duly appointed executor or administrator of the estate of the teacher, or, if the amount payable be less than \$1,000 and no executor or administrator is appointed, to such person or persons as the Auditor, in his judgment, may determine is or are legally entitled thereto.

"SEC. 3. Whenever the health officer has probable cause to believe that any person is affected with any communicable disease or is a carrier of communicable disease and that the continuance of such person in the place where he may be is likely to be dangerous to the lives or health of other persons, or that by reason of the noncooperation or carelessness of such person the public health is likely to be endangered, the health officer may by written order direct the removal by any designated officer or employee of the Health Department or by any member of the Metropolitan Police force of such person to and the detention of such person in any place or institution in the District of Columbia designated by the Health Officer, or any institution located without the District of Columbia which may be designated by the Health Officer and which is under the supervision of the government of the District of Columbia or any agency thereof. August 8, 1946
[H. R. 6890]
[Public Law 671]

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the First War Powers Act, 1941 (55 Stat. 838), as amended, is hereby further amended by adding at the end of title III thereof the following:

"SEC. 305. The Trading With the Enemy Act of October 6, 1917 (40 Stat. 411), as amended, is hereby further amended by inserting after section 32 thereof, and before the section added by Public Law 382, Seventy-ninth Congress, the following sections:

"SEC. 33. No return may be made pursuant to section 9 (a) or 32 (a) unless notice of claim for return has been filed within two years from the seizure by or vesting in the Alien Property Custodian, as the case may be, of the property or interest in respect of which the claim is made or within two years from the date of enactment of this section, whichever is later. No suit pursuant to section 9 (a) may be instituted after the expiration of two years from the date of seizure by or vesting in the Alien Property Custodian, as the case may be, of the property or interest in respect of which relief is sought or from the date of enactment of this section, whichever is later, but in computing such two years there shall be excluded any period during which there was pending a suit or claim for return pursuant to section 9 (a) or 32 hereof.

No debt claim shall be allowed under this section if it was not due and owing at the time of such vesting or transfer, or if it arose from any action or transactions prohibited by or pursuant to this Act and not licensed or otherwise authorized pursuant thereto, or (except in the case of debt claims acquired by the Custodian) if it was at the time of such vesting or transfer due and owing to any person who has since the beginning of the war been convicted of violation of this Act, as

amended, sections 1-6 of the Criminal Code (18 U. S. C. 1-6), title I of the Act of June 15, 1917 (ch. 30, 40 Stat. 217), as amended; the Act of April 20, 1918 (ch. 59, 40 Stat. 534), as amended; the Act of June 8, 1934 (ch. 327, 52 Stat. 631), as amended; the Act of January 12, 1938 (ch. 2, 52 Stat. 3); title I, Alien Registration Act, 1940 (ch. 439, 54 Stat. 670); the Act of October 17, 1940 (ch. 897, 54 Stat. 1201); or the Act of June 25, 1942 (ch. 447, 56 Stat. 390). Any defense to the payment of such claims which would have been available to the debtor shall be available to the Custodian, except that the period from and after the beginning of the war shall not be included for the purpose of determining the application of any statute of limitations. Debt claims allowable hereunder shall include only those of citizens of the United States or of the Philippine Islands; those of corporations organized under the laws of the United States or any State, Territory, or possession thereof, or the District of Columbia or the Philippine Islands; those of other natural persons who are and have been since the beginning of the war residents of the United States and who have not during the war been interned or paroled pursuant to the Alien Enemy Act (50 U. S. C. 21); and those acquired by the Custodian. Legal representatives (whether or not appointed by a court in the United States) or successors in interest by inheritance, devise, bequest, or operation of law of debt claimants, other than persons who would themselves be disqualified hereunder from allowance of a debt claim, shall be eligible for payment to the same extent as their principals or predecessors would have been.

“(b) The Custodian shall fix a date or dates after which the filing of debt claims in respect of any or all debtors shall be barred, and may extend the time so fixed, and shall give at least sixty days’ notice thereof by publication in the Federal Register. In no event shall the time extend beyond the expiration of two years from the date of the last vesting in or transfer to the Custodian of any property or interest of a debtor in respect of whose debts the date is fixed, or from the date of enactment of this section, whichever is later. No debt shall be paid prior to the expiration of one hundred and twenty days after publication of the first such notice in respect of the debtor, nor in any event shall any payment of a debt claim be made out of any property or interest or proceeds in respect of which a suit or proceeding pursuant to this Act for return is pending and was instituted prior to the expiration of such one hundred and twenty days.

“(c) The Custodian shall examine the claims, and such evidence in respect thereof as may be presented to him or as he may introduce into the record, and shall make a determination, with respect to each claim, of allowance or disallowance, in whole or in part.

“(d) Payment of debt claims shall be made only out of such money included in, or received as net proceeds from the sale, use, or other disposition of, any property or interest owned by the debtor immediately prior to its vesting in or transfer to the Alien Property Custodian, as shall remain after deduction of (1) the amount of the expenses of the Office of Alien Property Custodian (including both expenses in connection with such property or interest or proceeds thereof, and such portion as the Custodian shall fix of the other expenses of the Office of Alien Property Custodian), and of taxes, as defined in section 36 hereof, paid by the Custodian in respect of such property or interest or proceeds, and (2) such amount, if any, as the Custodian may establish as a cash reserve for the future payment of such expenses and taxes. If the money available hereunder for the payment of debt claims against the debtor is insufficient for the satisfaction of all claims allowed by the Custodian, ratable payments shall be made in accordance with subsection (g) hereof

to the extent permitted by the money available and additional payments shall be made whenever the Custodian shall determine that substantial further money has become available, through liquidation of any such property or interest or otherwise. The Custodian shall not be required through any judgment of any court, levy of execution, or otherwise to sell or liquidate any property or interest vested in or transferred to him, for the purpose of paying or satisfying any debt claim.

“(e) If the aggregate of debt claims filed as prescribed does not exceed the money from which, in accordance with subsection (d) hereof, payment may be made, the Custodian shall pay each claim to the extent allowed, and shall serve by registered mail, on each claimant whose claim is disallowed in whole or in part, a notice of such disallowance. Within sixty days after the date of mailing of the Custodian's determination, any debt claimant whose claim has been disallowed in whole or in part may file in the District Court of the United States for the District of Columbia a complaint for review of such disallowance naming the Custodian as defendant. Such complaint shall be served on the Custodian. The Custodian, within forty-five days after service on him, shall certify and file in said court a transcript of the record of proceedings in the Office of Alien Property Custodian with respect to the claim in question. Upon good cause shown such time may be extended by the court. Such record shall include the claim as filed, such evidence with respect thereto as may have been presented to the Custodian or introduced into the record by him, and the determination of the Custodian with respect thereto, including any findings made by him. The court may, in its discretion, take additional evidence, upon a showing that such evidence was offered to and excluded by the Custodian, or could not reasonably have been adduced before him or was not available to him. The court shall enter judgment affirming, modifying, or reversing the Custodian's determination, and directing payment in the amount, if any, which it finds due.

Payments; notice of disallowance.

Filing of complaint for review, etc.

“(f) If the aggregate of debt claims filed as prescribed exceeds the money from which, in accordance with subsection (d) hereof, payment may be made, the Custodian shall prepare and serve by registered mail on all claimants a schedule of all debt claims allowed and the proposed payment to each claimant. In preparing such schedule, the Custodian shall assign priorities in accordance with the provisions of subsection (g) hereof. Within sixty days after the date of mailing of such schedule, any claimant considering himself aggrieved may file in the District Court of the United States for the District of Columbia a complaint for review of such schedule, naming the Custodian as defendant. A copy of such complaint shall be served upon the Custodian and on each claimant named in the schedule. The Custodian, within forty-five days after service on him, shall certify and file in said court a transcript of the record of proceedings in the Office of Alien Property Custodian with respect to such schedule. Upon good cause shown such time may be extended by the court. Such record shall include the claims in question as filed, such evidence with respect thereto as may have been presented to the Custodian or introduced into the record by him, any findings or other determinations made by the Custodian with respect thereto, and the schedule prepared by the Custodian. The court may, in its discretion, take additional evidence, upon a showing that such evidence was offered to and excluded by the Custodian or could not reasonably have been adduced before him or was not available to him. Any interested debt claimant who has filed a claim with the Custodian pursuant to this section, upon timely application to the court, shall be permitted to intervene in such review proceedings. The

court shall enter judgment affirming or modifying the schedule as prepared by the Custodian and directing payment, if any be found due, pursuant to the schedule as affirmed or modified and to the extent of the money from which, in accordance with subsection (d) hereof, payment may be made. Pending the decision of the court on such complaint for review, and pending final determination of any appeal from such decision, payment may be made only to an extent, if any, consistent with the contentions of all claimants for review.

Order of payments.

“(g) Debt claims shall be paid in the following order of priority: (1) Wage and salary claims, not to exceed \$600; (2) claims entitled to priority under sections 191 and 193 of title 31 of the United States Code, except as provided in subsection (h) hereof; (3) all other claims for services rendered, for expenses incurred in connection with such services, for rent, for goods and materials delivered to the debtor, and for payments made to the debtor for goods or services not received by the claimant; (4) all other debt claims. No payment shall be made to claimants within a subordinate class unless the money from which, in accordance with subsection (d) hereof, payment may be made permits payment in full of all allowed claims in every prior class.

Debts not entitled to priority.

“(h) No debt of any kind shall be entitled to priority under any law of the United States or any State, Territory, or possession thereof, or the District of Columbia, solely by reason of becoming a debt due or owing to the United States as a result of its acquisition by the Alien Property Custodian.

Relief and remedy available.

“(i) The sole relief and remedy available to any person seeking satisfaction of a debt claim out of any property or interest which shall have been vested in or transferred to the Alien Property Custodian (other than any property or interest acquired by the United States prior to December 18, 1941), or the proceeds thereof, shall be the relief and remedy provided in this section, and suits for the satisfaction of debt claims shall not be instituted, prosecuted, or further maintained except in conformity with this section: *Provided*, That no person asserting any interest, right, or title in any property or interest or proceeds acquired by the Alien Property Custodian, shall be barred from proceeding pursuant to this Act for the return thereof, by reason of any proceeding which he may have brought pursuant to this section; nor shall any security interest asserted by the creditor in any such property or interest or proceeds be deemed to have been waived solely by reason of such proceeding. The Alien Property Custodian shall treat all debt claims now filed with him as claims filed pursuant to this section. Nothing contained in this section shall bar any person from the prosecution of any suit at law or in equity against the original debtor or against any other person who may be liable for the payment of any debt for which a claim might have been filed hereunder. No purchaser, lessee, licensee, or other transferee of any property or interest from the Alien Property Custodian shall, solely by reason of such purchase, lease, license, or transfer, become liable for the payment of any debt owed by the person who owned such property or interest prior to its vesting in or transfer to the Alien Property Custodian. Payment by the Alien Property Custodian to any debt claimant shall constitute, to the extent of payment, a discharge of the indebtedness represented by the claim.

"SEC. 36. (a) The vesting in or transfer to the Alien Property Custodian of any property or interest (other than any property or interest acquired by the United States prior to December 18, 1941), or the receipt by him of any earnings, increment, or proceeds thereof shall not render inapplicable any Federal, State, Territorial, or local tax for any period prior or subsequent to the date of such vesting or transfer, nor render applicable the exemptions provided in title II of the Social Security Act with respect to service performed in the employ of the United States Government or of any instrumentality of the United States.

The former owner shall not be liable for any such tax accruing while such property, interest, earnings, increment, or proceeds are held by the Alien Property Custodian, unless they are returned pursuant to this Act without payment of such tax by the Alien Property Custodian. Every such tax shall be paid by the Alien Property Custodian to the same extent, as nearly as may be deemed practicable, as though the property or interest had not been vested in or transferred to the Alien Property Custodian, and shall be paid only out of the property or interest, or earnings, increment, or proceeds thereof, to which they are incident or out of other property or interests acquired from the same former owner, or earnings, increment, or proceeds thereof. No tax liability may be enforced from any property or interest or the earnings, increment, or proceeds thereof while held by the Alien Property Custodian except with his consent. Where any property or interest is transferred, otherwise than pursuant to section 9 (a) or 32 hereof, the Alien Property Custodian may transfer the property or interest free and clear of any tax, except to the extent of any lien for a tax existing and perfected at the date of vesting, and the proceeds of such transfer shall, for tax purposes, replace the property or interest in the hands of the Alien Property Custodian.

Statutes of limitations on assessment, collection, refund, or credit of Federal taxes shall be suspended, with respect to any vested property or interest, or the earnings, increment or proceeds thereof, while vested and for six months thereafter; but no interest shall be paid upon any refund with respect to any period during which the statute of limitations is so suspended.

"b. There is reasonable certainty that the job for which the veteran is to be trained will be available to him at the end of the training period.

"g. Provision is made for related instruction for the individual veteran who may need it.

"h. There is in the establishment adequate space, equipment, instructional material, and instructor personnel to provide satisfactory training on the job.

"i. Adequate records are kept to show the progress made by the veteran toward his job objective and a periodic report showing the conduct and progress made in the course of training on the job will be provided for the Veterans' Administration.

"j. Appropriate credit is given the veteran for previous job experience, whether in the military service or elsewhere, his beginning wage adjusted to the level to which such credit advances him and his training period shortened accordingly. No course of training will be considered bona fide if given to a veteran who is already qualified by training and experience for the job objective.

"k. A copy of the training program as approved by the State agency is provided to the veteran and to the Veterans' Administration by the employer.

"l. Upon completion of the training the veteran is given a certificate by the employer indicating the length and type of training provided and that the veteran has completed the course of training on the job satisfactorily.

"3. The Veterans' Administration is not authorized to award the benefits under this part, if it is found by the Administrator that the course of apprentice training or other training on the job fails to meet the requirements of this paragraph."

No benefit under section 2 of this Act shall be extended to any person unless (1) an application for patent for the same invention, discovery, or design which was communicated or supplied as aforesaid is filed in the United States Patent Office prior to the expiration of twelve months from the date of this Act; and (2) unless sufficient information in writing and under oath as to what was communicated or supplied, the date thereof and to whom made, is furnished to the Commissioner of Patents by the owner of such application while it is pending, or prior to the expiration of twelve months from the date of this Act to enable him to judge of the identity of the invention so communicated or supplied with the invention claimed in such application, which information shall be made a part of the record of such application and shall have no evidentiary value as proof of the facts stated therein; and (3) unless the country of which such person is a national extends substantially reciprocal privileges to citizens of the United States.

the benefits of this section shall not apply to the manufacture, use, or sale as aforesaid if and to the extent that it is based upon or attributable to a communication of the invention, discovery, or design so manufactured, used, or sold to the United States or to any person, firm, or corporation in the United States at the request of said Government under an agreement or arrangement between the Government of the United States and the government of another country for the supply or mutual exchange of information or articles for use for national defense purposes during the periods of the national emergencies declared by the President of the United States preceding World War II, or for use for war purposes during World War II.

Whereas the Territory of Hawaii is suffering from the effects of violent seismic waves of extraordinary force and unexampled violence which struck the Territory in April, 1946; and

Whereas as a result of said seismic waves two hundred lives were lost and approximately \$25,000,000 in damages caused to property; and

Whereas the damage to Territorial and county piers, waterworks, sewer works, and other structures and facilities is estimated at \$4,250,000; and

Whereas the Territory of Hawaii has indicated a willingness to assume one-half of the cost of providing emergency relief for the victims of the seismic waves and of aiding in the restoration and reconstruction of the devastated area: Therefore

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That there is hereby authorized to be appropriated, out of any money in the Treasury not otherwise appropriated, the sum of \$1,300,000, to be immediately available and remain available until expended, which shall be used in the discretion and under the direction of the Federal Works Administrator for the making of grants for the repair and reconstruction of any Territorial, county, or municipal structures or facilities, other than roads, highways, or bridges, damaged or destroyed by the seismic waves which struck the Territory in April 1946 (including but not confined to piers numbered 1 and numbered 2 at Hilo, the Hilo ship berths, the pavilion and hall of the Hawaiian Homes Commission at Hilo, the school buildings at Laupahoehoe, the waterworks and the sewer works at Hilo, and the county public parks), and for the removal of debris and other clean-up operations necessitated by said seismic waves: *Provided*, That no grant shall exceed 50 per centum of the cost of the work financed in part therewith as determined by the Administrator: *And provided further*, That in the event that any amount shall be allocated pursuant to law out of any existing appropriation for any of the purposes herein specified, then the amount herein authorized to be appropriated shall be reduced by the amount so allocated.

"That deposits of coal, phosphate, sodium, potassium, oil, oil shale, or gas, and lands containing such deposits owned by the United States, including those in national forests, but excluding lands acquired under the Act known as the Appalachian Forest Act, approved March 1, 1911 (36 Stat. 961), and those in incorporated cities, towns, and villages and in national parks and monuments, those acquired under other Acts subsequent to February 25, 1920, and lands within the naval petroleum and oil-shale reserves, except as hereinafter provided, shall be subject to disposition in the form and manner provided by this Act to citizens of the United States, or to associations of such citizens, or to any corporation organized under the laws of the United States, or of any State or Territory thereof, or in the case of coal, oil, oil shale, or gas, to municipalities. Citizens of another country, the laws, customs, or regulations of which deny similar or like privileges to citizens or corporations of this country, shall not by stock ownership, stock holding, or stock control, own any interest in any lease acquired under the provisions of this Act.

"The United States reserves the ownership of and the right to extract helium from all gas produced from lands leased or otherwise granted under the provisions of this Act, under such rules and regulations as shall be prescribed by the Secretary of the Interior: *Provided further,* That in the extraction of helium from gas produced from such lands it shall be so extracted as to cause no substantial

delay in the delivery of gas produced from the well to the purchaser thereof."

SEC. 2. Section 16 of the Act is amended to read as follows:

"SEC. 16. That all leases of lands containing oil or gas, made or issued under the provisions of this Act, shall be subject to the condition that the lessee will, in conducting his explorations and mining operations, use all reasonable precautions to prevent waste of oil or gas developed in the land, or the entrance of water through wells drilled by him to the oil sands or oil-bearing strata, to the destruction or injury of the oil deposits. Violations of the provisions of this section shall constitute grounds for the forfeiture of the lease, to be enforced as provided in this Act."

Forfeiture.

SEC. 3. Section 17 of the Act is amended to read as follows:

"SEC. 17. All lands subject to disposition under this Act which are known or believed to contain oil or gas deposits may be leased by the Secretary of the Interior. When the lands to be leased are within any known geological structure of a producing oil or gas field, they shall be leased to the highest responsible qualified bidder by competitive bidding under general regulations, in units of not exceeding six hundred and forty acres, which shall be as nearly compact in form as possible, upon the payment by the lessee of such bonus as may be accepted by the Secretary and of such royalty as may be fixed in the lease which shall be not less than 12½ per centum in amount or value of the production removed or sold from the lease. When the lands to be leased are not within any known geological structure of a producing oil or gas field, the person first making application for the lease who is qualified to hold a lease under this Act shall be entitled to a lease of such lands without competitive bidding. Such leases shall be conditioned upon the payment by the lessee of a royalty of 12½ per centum in amount or value of the production removed or sold from the lease. Leases issued under this section shall be for a primary term of five years and shall continue so long thereafter as oil or gas is produced in paying quantities.

Noncompetitive lease.

Primary term.

"Any lease issued under this Act upon which there is production during or after the primary term shall not terminate when such production ceases if diligent drilling operations are in progress on the land under lease during such period of nonproduction.

Status of lease during nonproduction period.

"Upon the expiration of the primary term of any noncompetitive lease maintained in accordance with applicable statutory requirements and regulations, the record titleholder thereof shall be entitled to a single extension of the lease, unless then otherwise provided by law, for such lands covered by it as are not on the expiration date of the lease within the known geological structure of a producing oil or gas field or withdrawn from leasing under this section. A withdrawal, however, shall not affect the right to an extension if actual drilling operations on such lands were commenced prior thereto and were being diligently prosecuted on such expiration date. No withdrawal shall be effective within the meaning of this section until ninety days after notice thereof shall be mailed, registered mail, to each lessee to be affected by such withdrawal. Such extension shall be for a period of five years and so long thereafter as oil or gas is produced in paying quantities and shall be subject to such rules and regulations as are in force at the expiration of the initial five-year term of the lease. No extension shall be granted unless an application therefor is filed by the record titleholder within a period of ninety days prior to such expiration date. Any noncompetitive lease which is not subject to such extension in whole or in part because the lands covered thereby are within the known geologic structure of a producing oil or gas field at the date of expiration of the primary term of the lease, and upon

which drilling operations are being diligently prosecuted on such expiration date, shall continue in effect for a period of two years and so long thereafter as oil or gas is produced in paying quantities.

Payment of rental
and royalty.

"All leases issued under this section shall be conditioned upon the payment by the lessee in advance of a rental of not less than 25 cents per acre per annum. A minimum royalty of \$1 per acre in lieu of rental shall be payable at the expiration of each lease year beginning on or after a discovery of oil or gas in paying quantities on the lands leased: *Provided*, That in the case of lands not within any known geological structure of a producing oil or gas field, the rentals for the second and third lease years shall be waived unless a valuable deposit of oil or gas be sooner discovered.

Waiver of rentals.

Compensation for
drainage.

"Whenever it appears to the Secretary of the Interior that lands owned by the United States are being drained of oil or gas by wells drilled on adjacent lands, he is hereby authorized and empowered to negotiate agreements whereby the United States, or the United States and its lessees, shall be compensated for such drainage, such agreements to be made with the consent of the lessees affected thereby and the primary term of any lease for which compensatory royalty is being paid shall be extended by adding thereto a period equal to the period during which such compensatory royalty is paid."

Extension of pri-
mary term.

SEC. 4. The Act is hereby amended by adding a new section to read as follows:

Issuance of new
leases.

"SEC. 17. (a) The Secretary of the Interior shall, upon timely application therefor, issue a new lease in exchange for any lease issued for a term of twenty years, or any renewal thereof, or any lease heretofore issued in exchange for a twenty-year lease, such new lease to be for a primary term of five years and so long thereafter as oil or gas is produced in paying quantities and at a royalty rate of not less than $12\frac{1}{2}$ per centum in amount or value of the production removed or sold from such leases, except that the royalty rate shall be $12\frac{1}{2}$ per centum in amount or value of the production removed or sold from said leases, as to (1) such leases, or such part of the lands subject thereto, and the deposits underlying the same, as are not believed to be within the productive limits of any producing oil or gas deposit, as such productive limits are found by the Secretary to exist on the effective date of this Act, and (2) any production on a lease from an oil or gas deposit which was discovered after May 27, 1941, by a well or wells drilled within the boundaries of the lease, and which is determined by the Secretary to be a new deposit; and (3) any production on or allocated to a lease pursuant to an approved unit or cooperative agreement from an oil or gas deposit which was discovered after May 27, 1941, on land committed to such agreement, and which is determined by the Secretary to be a new deposit, where such lease, or a lease for which it is exchanged, was included in such agreement at the time of discovery, or was included in a duly executed and filed application for the approval of such agreement at the time of discovery."

SEC. 5. The Act is hereby amended by adding a new section to read as follows:

Cooperative plan for
conservation.

"SEC. 17. (b) For the purpose of more properly conserving the natural resources of any oil or gas pool, field, or like area, or any part thereof (whether or not any part of said oil or gas pool, field, or like area, is then subject to any cooperative or unit plan of development or operation), lessees thereof and their representatives may unite with each other, or jointly or separately with others, in collectively adopting and operating under a cooperative or unit plan of development or operation of such pool, field, or like area, or any part thereof, when-

ever determined and certified by the Secretary of the Interior to be necessary or advisable in the public interest. The Secretary is thereunto authorized, in his discretion, with the consent of the holders of leases involved, to establish, alter, change, or revoke drilling, producing, rental, minimum royalty, and royalty requirements of such leases and to make such regulations with reference to such leases, with like consent on the part of the lessees, in connection with the institution and operation of any such cooperative or unit plan as he may deem necessary or proper to secure the proper protection of the public interest. The Secretary may provide that oil and gas leases hereafter issued under this Act shall contain a provision requiring the lessee to operate under such a reasonable cooperative or unit plan, and he may prescribe such a plan under which such lessee shall operate, which shall adequately protect the rights of all parties in interest, including the United States.

"Any plan authorized by the preceding paragraph, which includes lands owned by the United States, may, in the discretion of the Secretary, contain a provision whereby authority is vested in the Secretary of the Interior, or any such person, committee, or State or Federal officer or agency as may be designated in the plan, to alter or modify from time to time the rate of prospecting and development and the quantity and rate of production under such plan. All leases operated under any such plan approved or prescribed by the Secretary shall be excepted in determining holdings or control under the provisions of any section of this Act.

Authority to alter
rate of prospecting,
etc.

"When separate tracts cannot be independently developed and operated in conformity with an established well-spacing or development program, any lease, or a portion thereof, may be pooled with other lands, whether or not owned by the United States, under a communitization or drilling agreement providing for an apportionment of production or royalties among the separate tracts of land comprising the drilling or spacing unit when determined by the Secretary of the Interior to be in the public interest, and operations or production pursuant to such an agreement shall be deemed to be operations or production as to each such lease committed thereto.

Agreement for ap-
portionment of pro-
duction or royalties.

"Any lease issued for a term of twenty years, or any renewal thereof, or any portion of such lease that has become the subject of a cooperative or unit plan of development or operation of a pool, field, or like area, which plan has the approval of the Secretary of the Interior, shall continue in force until the termination of such plan. Any other lease issued under any section of this Act which is committed to any such plan that contains a general provision for allocation of oil or gas shall continue in force and effect as to the land committed so long as the lease remains subject to the plan, provided oil or gas is discovered under the plan prior to the expiration date of the primary term of such lease. The minimum royalty or discovery rental under any lease that has become subject to any cooperative or unit plan of development or operation, or other plan that contains a general provision for allocation of oil or gas, shall be payable only with respect to the lands subject to such lease to which oil or gas shall be allocated under such plan. Any lease which shall be eliminated from any such approved or prescribed plan, or from any communitization or drilling agreement authorized by this section, and any lease which shall be in effect at the termination of any such approved or prescribed plan, or at the termination of any such communitization or drilling agreement, unless relinquished, shall continue in effect for the original term thereof, but for not less than two years, and so long thereafter as oil or gas is produced in paying quantities.

Continuation of
lease.

Minimum royalty
or discovery rental.

Approval of contracts.

"The Secretary of the Interior is hereby authorized, on such conditions as he may prescribe, to approve operating, drilling, or development contracts made by one or more lessees of oil or gas leases, with one or more persons, associations, or corporations, whenever, in his discretion and regardless of acreage limitations provided for in this Act, the conservation of natural products or the public convenience or necessity may require it or the interests of the United States may be best subserved thereby.

Subsurface storage of oil or gas.

"The Secretary of the Interior, to avoid waste or to promote conservation of natural resources, may authorize the subsurface storage of oil or gas, whether or not produced from federally owned lands, in lands leased or subject to lease under this Act. Such authorization may provide for the payment of a storage fee or rental on such stored oil or gas, or, in lieu of such fee or rental, for a royalty other than that prescribed in the lease when such stored oil or gas is produced in conjunction with oil or gas not previously produced. Any lease on which storage is so authorized shall be extended at least for the period of storage and so long thereafter as oil or gas not previously produced is produced in paying quantities."

SEC. 6. Section 27 of the Act is amended to read as follows:

"SEC. 27. No person, association, or corporation, except as herein provided, shall take or hold coal, phosphate, or sodium leases or permits during the life of such leases in any one State, exceeding in the aggregate acreage two thousand five hundred and sixty acres for each of said minerals; and no person, association, or corporation, except as herein provided, shall take or hold at one time oil or gas leases exceeding in the aggregate fifteen thousand three hundred and sixty acres granted hereunder in any one State. No person, association, or corporation shall take or hold at one time any interest or interests as a member of an association or associations or as a stockholder of a corporation or corporations holding a lease or leases, permit or permits, under the provisions hereof, which, together with the area embraced in any direct holding of a lease or leases, permit or permits, under this Act, or which, together with any other interest or interests as a member of an association or associations or as a stockholder of a corporation or corporations holding a lease or leases, permit or permits, under the provisions hereof for any kind of minerals hereunder, exceeds in the aggregate an amount equivalent to the maximum number of acres of the respective kinds of minerals allowed to any one lessee or permittee under this Act. For the purpose of this Act, no contract for development and operation of any lands leased hereunder, whether or not coupled with an interest in such lease, nor any lease or leases owned in common by two or more persons, shall be deemed to create a separate association under this section between or among such contracting parties, or the persons owning such lease or leases in common, but the proportionate interest of each such person shall be charged against the total acreage permitted to be held by such person under this Act: *Provided*, That the total acreage so held in common by two or more persons shall not exceed, in the aggregate, an amount equivalent to the maximum number of acres of the respective kind of minerals allowed to any one lessee or permittee under this Act. The interest of an optionee under a nonrenewable option to purchase or otherwise acquire one or more oil or gas leases (whether then or thereafter issued), or any interest therein, when taken for the purpose of geological or geophysical exploration, shall not, prior to the exercise of such option, be a taking or holding or control under the acreage limitation provisions of any section of this Act. No such option shall be entered into after June 1, 1946, for a period of more than two years, without

the prior approval of the Secretary of the Interior, and no person, association, or corporation shall hold at one time such options of more than one hundred thousand acres in any one State: *Provided, however,* That nothing in this section shall be construed to invalidate options taken prior to June 1, 1946, and on which such geological or geophysical exploration has been actually made, and which are exercised within two years after the passage of this Act. Each holder of any such option shall file with the Secretary within ninety days after the 30th day of June and the 31st day of December in each year a statement under oath showing as of said dates (1) name of optionor and serial number of lease or application for lease, (2) date and expiration date of each option, (3) number of acres covered by each option, and (4) aggregate number of options held in each State and total acreage subject to said options in each State. If any interest in any lease is owned or controlled, directly or indirectly, by means of stock or otherwise, in violation of any of the provisions of this Act, the lease may be canceled, or the interest so owned may be forfeited, or the person so owning or controlling the interest may be compelled to dispose of the interest, in any appropriate proceeding instituted by the Attorney General. Such a proceeding shall be instituted in the United States district court for the district in which the leased property or some part thereof is located or in which the lease owner may be found, except that any ownership or interest forbidden in this Act which may be acquired by descent, will, judgment, or decree may be held for two years and not longer after its acquisition. Nothing herein contained shall be construed to limit sections 18, 18a, 19, and 22 or to prevent any number of lessees under the provisions of this Act from combining their several interests so far as may be necessary for the purposes of constructing and carrying on the business of a refinery, or of establishing and constructing as a common carrier a pipe line or lines of railroads to be operated and used by them jointly in the transportation of oil from their several wells, or from the wells of other lessees under this Act, or the transportation of coal or to increase the acreage which may be acquired or held under section 17 of this Act: *Provided,* That any combination for such purpose or purposes shall be subject to the approval of the Secretary of the Interior on application to him for permission to form the same. Except as in this Act provided, if any of the lands or deposits leased under the provisions of this Act shall be subleased, trusted, possessed, or controlled by any device permanently, temporarily, directly, indirectly, tacitly, or in any manner whatsoever, so that they form a part of or are in anywise controlled by any combination in the form of an unlawful trust, with the consent of the lessee, or form the subject of any contract or conspiracy in restraint of trade in the mining or selling of coal, phosphate, oil, oil shale, gas, or sodium entered into by the lessee, or any agreement or understanding, written, verbal, or otherwise, to which such lessee shall be a party, of which his or its output is to be or become the subject, to control the price or prices thereof or of any holding of such lands by any individual, partnership, association, corporation, or control in excess of the amounts of lands provided in this Act, the lease thereof shall be forfeited by appropriate court proceedings."

SEC. 7. The Act is hereby amended by adding a new section to read as follows:

"Sec. 30. (a) Notwithstanding anything to the contrary in section 30 hereof, any oil or gas lease issued under the authority of this Act may be assigned or subleased, as to all or part of the acreage included therein, subject to final approval by the Secretary and as to either a divided or undivided interest therein, to any person or persons

qualified to own a lease under this Act, and any assignment or sublease shall take effect as of the first day of the lease month following the date of filing in the proper land office of three original executed counterparts thereof, together with any required bond and proof of the qualification under this Act of the assignee or sublessee to take or hold such lease or interest therein. Until such approval, however, the assignor or sublessor and his surety shall continue to be responsible for the performance of any and all obligations as if no assignment or sublease had been executed. The Secretary shall disapprove the assignment or sublease only for lack of qualification of the assignee or sublessee or for lack of sufficient bond: *Provided, however,* That the Secretary may, in his discretion, disapprove an assignment of a separate zone or deposit under any lease, or of a part of a legal subdivision. Upon approval of any assignment or sublease, the assignee or sublessee shall be bound by the terms of the lease to the same extent as if such assignee or sublessee were the original lessee, any conditions in the assignment or sublease to the contrary notwithstanding. Any partial assignment of any lease shall segregate the assigned and retained portions thereof, and as above provided, release and discharge the assignor from all obligations thereafter accruing with respect to the assigned lands; and such segregated leases shall continue in full force and effect for the primary term of the original lease, but for not less than two years after the date of discovery of oil or gas in paying quantities upon any other segregated portion of the lands originally subject to such lease. Assignments under this section may also be made of parts of leases which are in their extended term because of production, and the segregated lease of any undeveloped lands shall continue in full force and effect for two years and so long thereafter as oil or gas is produced in paying quantities."

SEC. 8. The Act is hereby amended by adding a new section to read as follows:

"SEC. 30. (b) Notwithstanding any provision to the contrary in section 30 hereof, a lessee may at any time make and file in the appropriate land office a written relinquishment of all rights under any oil or gas lease issued under the authority of this Act or of any legal subdivision of the area included within any such lease. Such relinquishment shall be effective as of the date of its filing, subject to the continued obligation of the lessee and his surety to make payment of all accrued rentals and royalties and to place all wells on the lands to be relinquished in condition for suspension or abandonment in accordance with the applicable lease terms and regulations; thereupon the lessee shall be released of all obligations thereafter accruing under said lease with respect to the lands relinquished, but no such relinquishment shall release such lessee, or his bond, from any liability for breach of any obligation of the lease, other than an obligation to drill, accrued at the date of the relinquishment."

SEC. 9. Section 31 of the Act is amended to read as follows:

"SEC. 31. Except as otherwise herein provided, any lease issued under the provisions of this Act may be forfeited and canceled by an appropriate proceeding in the United States district court for the district in which the property, or some part thereof, is located whenever the lessee fails to comply with any of the provisions of this Act, of the lease, or of the general regulations promulgated under this Act and in force at the date of the lease; and the lease may provide for resort to appropriate methods for the settlement of disputes or for remedies for breach of specified conditions thereof.

SEC. 10. Section 39 which was added to the Act by the Act of February 9, 1933 (47 Stat. 798; 30 U. S. C., sec 209), is amended to read as follows:

"SEC. 39. The Secretary of the Interior for the purpose of encouraging the greatest ultimate recovery of coal, oil, or gas and in the interest of conservation of natural resources is authorized to waive, suspend, or reduce the rental, or minimum royalty, or reduce the royalty on an entire leasehold, or on any tract or portion thereof segregated for royalty purposes, whenever in his judgment it is necessary to do so in order to promote development, or whenever in his judgment the leases cannot be successfully operated under the terms provided therein. In the event the Secretary of the Interior, in the interest of conservation, shall direct or shall assent to the suspension of operations and production under any lease granted under the terms of this Act, any payment of acreage rental or of minimum royalty prescribed by such lease likewise shall be suspended during such period of suspension of operations and production; and the term of such lease shall be extended by adding any such suspension period thereto. The provisions of this section shall apply to all oil and gas leases issued under this Act, including those within an approved or prescribed plan for unit or cooperative development and operation."

SEC. 11. Section 5 of the Act approved February 7, 1927 (44 Stat. 1057; 30 U. S. C., sec. 285), is amended to read as follows:

SEC. 12. From and after the effective date of this Act, the royalty obligation to the United States under all leases requiring payment of royalty in excess of 12½ per centum, except leases issued or to be issued upon competitive bidding, is reduced to 12½ per centum in amount or value of production removed or sold from said leases as to (1) such leases, or such part of the lands subject thereto, and the deposits underlying the same, as are not believed to be within the productive limits of any oil or gas deposit, as such productive limits are found by the Secretary to exist on the effective date of this Act, and (2) any production on a lease from an oil or gas deposit which was discovered after May 27, 1941, by a well or wells drilled within the boundaries of the lease, and which is determined by the Secretary to be a new deposit; and (3) any production on or allocated to a lease pursuant to an approved unit or cooperative agreement from an oil or gas deposit which was discovered after May 27, 1941, on land committed to such agreement, and which is determined by the Secretary to be a new deposit, where such lease was included in such agreement at the time of discovery, or was included in a duly executed and filed application for the approval of such agreement at the time of discovery.

The bonds issued under this Act shall be issued by the Secretary of the Treasury under the authority and subject to the provisions of the Second Liberty Bond Act, as amended, and through such agencies as he may designate. Except as provided in subsection (d), such bonds shall be nonnegotiable and shall not be transferable by sale, exchange, assignment, pledge, hypothecation, or otherwise. Such bonds shall be issued only to and in the names of living members or living former members of the armed forces. In the event of the death of any holder of any such bond or of any check issued pursuant to this subsection, payment of the bond shall be made by the Secretary of the Treasury prior to, upon, or after its maturity upon application at the option of such holder's survivors and payment of the check shall be made by the Secretary of the Treasury upon application by such survivors as follows: To such holder's surviving spouse and children, if any, in equal shares; and if such holder leaves no surviving spouse or child or children, then in equal shares to such holder's surviving parents, if any. Payment of any such bond or any such check to any holder, or any survivor entitled thereto under the provisions of this subsection, between seventeen and twenty-one years of age shall constitute a complete discharge of the obligations of the United States under this Act. Where the Secretary of the Treasury is of the opinion that any holder of any such bond or any such check or any survivor entitled to payment under the provisions of this subsection is, by reason of being either under seventeen years of age or under mental disability, incapable of satisfactorily looking after his own interests, payment of such bond or such check may be made in the same manner, and with the same effect, as settlement and compensation made under the provisions of subsection (c). Interest on each bond issued under this Act shall accrue at the rate of $2\frac{1}{2}$ per centum per annum from the date of such bond to the date of maturity or to the last day of the month in which payment of the principal of the bond is made, whichever is earlier, and shall be paid with such principal. The provisions of this section with respect to the issuance and payment of bonds shall be carried out subject to regulations of the Secretary of the Treasury.

(b) Leave by this Act provided to be settled and compensated for under this section shall, in the case of any member or former member of the armed forces who dies after discharge, or on or after September 1, 1946, if not discharged prior to such date, and before settlement and compensation has been effected, be settled and compensated for, on application therefor, with such member's or former member's survivors, as follows: To such member's or former member's surviving spouse and children, if any, in equal shares; and if such member or former member leaves no surviving spouse or child or children, then in equal shares to his surviving parents, if any. [H. R. 2851]
[Public Law 711]

To provide for investigating the matter of the establishment of a national park in the old part of the city of Philadelphia, for the purpose of conserving the historical objects and buildings therein.

Philadelphia.

Whereas thousands of residents of the city of Philadelphia, comprising part of the Third Congressional District of Pennsylvania, have petitioned their representatives in the Congress of the United States upon the matters more fully hereinafter set forth; and Whereas the petition of the residents of the city of Philadelphia calls attention to the existence of many shrines hallowed in American history, as well as several modern buildings owned by the Federal Government, in the area of the city of Philadelphia, beginning at the southeast corner of Sixth Street and Chestnut Street and proceeding southwardly to the northeast corner of Sixth Street and Walnut Street; thence proceeding eastwardly to the northwest corner of Fifth Street and Walnut Street; thence proceeding northwardly to a point on the west side of Fifth Street which would be made by extending the north line of Sansom Street to the east side of Fifth Street; thence proceeding eastwardly along the north line of the said Sansom Street to a point in the east side of Fourth Street which would be made by extending the north line of the said Sansom Street to the east side of the said Fourth Street; thence southwardly to the northeast corner of Harmony and Fourth Streets; thence eastwardly to the northwest corner of Harmony and Third Streets; thence northwardly to a point at which a line extended perpendicularly from the east side of Third Street would meet the angle created by the lines forming the northeast corner of Third and Dock Streets; thence eastwardly along the northerly line

of said Dock Street to the northeast corner of Dock, South American, and Moravian Streets; thence eastwardly to the northwest corner of Moravian and Second Streets; thence northwardly to the southwest corner of Second and Chestnut Streets; thence westwardly to the southeast corner of Sixth and Chestnut Streets, to the place of beginning; and calls attention to the fact that much of the area above described is run down, some properties are demolished, and others are in such dilapidated condition as to constitute a serious fire hazard of such proportions as to endanger Independence Hall, Carpenters' Hall, the Old Custom House, and the First Bank of the United States, as well as other landmarks and shrines of patriotism, and that such unsightly condition is not conducive to a proper respect and reverence for those American ideals which are symbolized by those shrines; and recommends that the Federal Government establish a national park in the above vicinity and also in the area bounded by Fifth Street on the east, Race Street on the north, Sixth Street on the west, and Chestnut Street on the south, which will assure at once a beautiful setting for those shrines and maximum protection against fire or other disaster; and

Whereas during these troubled times it is desirable to augment the defense effort of our Nation not only with arms but with proper emphasis on spiritual values; and

Whereas an attractive and inspiring setting will create a stronger sense of reverence for American institutions, laws and orders, which had their beginnings, in large part, in this group of shrines in the formative years around 1776; and

Whereas it is proper, fitting, and desirable that the United States of America should properly enshrine these jewels of democracy, so that all who visit these hallowed places from the far corners of this glorious democracy and the four corners of the world may be stirred with a feeling of patriotic reverence: Therefore

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That a commission is hereby created for the purpose of investigating the matter of the establishment in the city of Philadelphia, in the Commonwealth of Pennsylvania, of a Federal area to be called Philadelphia National Shrines Park, or by some other appropriate name, to encompass within its area the buildings of historical significance in the old part of the city of Philadelphia, and to be operated and maintained by the National Park Service, for the purpose of conserving the historical objects and buildings in the said area and to provide for the enjoyment and appreciation thereof in such manner and by such means as will leave them unimpaired for the enjoyment of future generations.

SEC. 2. The Commission shall be known as the Philadelphia National Shrines Park Commission, and shall be composed of seven individuals, who shall serve without compensation, to be appointed as follows: One Member of the United States Senate, to be appointed by the President of the Senate; one Member of the United States House of Representatives, to be appointed by the Speaker of the House; one member to be appointed by the Secretary of the Interior, and four persons, one of whom shall be a resident of the city of Philadelphia, to be appointed by the President of the United States. Any vacancy in the Commission shall be filled in the same manner in which the original appointment was made.

SEC. 3. The Commission shall meet for the purpose of organizing within thirty days after the enactment of this Act. Rooms shall be provided for the use of the Commission in the New Custom House at Philadelphia. The Commission shall elect a Chairman and executive secretary from among its members.

Such report shall be transmitted to the Congress by the Secretary of the Interior not later than January 3, 1947. Upon submission of the report to Congress, the Commission shall cease to exist.

(a) The Secretary of the Interior may appoint and fix the compensation, in accordance with the provisions of the civil-service laws and the Classification Act of 1923, as amended, of such experts, advisers, and other employees, and may make such expenditures, including expenditures for actual travel and subsistence expense of members, employees, and witnesses (not exceeding \$15 for subsistence expense for any one person for any one calendar day), for personal services at the seat of government and elsewhere, and for printing and binding, as are necessary for the efficient execution of the functions, powers, and duties of the Commission under this Act. The Commission is authorized to utilize voluntary and uncompensated services for the purposes of this Act. There is hereby authorized to be appropriated, out of any money in the Treasury not otherwise appropriated, the sum of \$15,000 to carry out the provisions of this Act.

(b) The Commission shall have the same privilege of free transmission of official mail matter as is granted by law to officers of the United States Government.

Nonapplicability.

"(b) (1) If any pension or compensation is determined by the Veterans' Administration to be payable on the basis of the death of any individual referred to in subsection (a) of this section, any monthly benefits or lump-sum death payment payable under this title with respect to the wages of such individual shall be determined without regard to such subsection (a).

"(c) In the event any individual referred to in subsection (a) has died during such three-year period but before the date of the enactment of this section—

"(1) upon application filed within six months after the date of the enactment of this section, any monthly benefits payable with respect to the wages of such individual (including benefits for months before such date) shall be computed or recomputed and shall be paid in accordance with subsection (a), in the same manner as though such application had been filed in the first month in which all conditions of entitlement to such benefits, other than the filing of an application, were met;

(b) In the event that the total contributions of a retired participant, other than voluntary contributions made in accordance with the provisions of section 881, with interest compounded annually at 4

per centum added thereto, exceed the total amount returned to such participant or to an annuitant claiming through him, in the form of annuities, accumulated at the same rate of interest up to the date the annuity payments cease under the terms of the annuity, the excess of the accumulated contributions over the accumulated annuity payments shall be paid in the following order of precedence, upon the establishment of a valid claim therefor:
